DON G. ALLEN

"Boo" "Dapper"

Calvin Coolidge School, Band 1, 2, 3, 4; Masque and Wig 2, 3, 4; Cloak and Plumv; Cross Country 1, 2, 3, 4; "Death Takes a Holiday" 2; "The Bat" 3; "What A Life" 4; Operetta 2, 3, 4; Truck 1.

Don has become well known to his classmates by his interest in dramatics. He has taken part in the school plays for three years. He is most noted for his ability to throw any gathering into an uproar with his antics. His biggest weakness is his insatiable liking for murder-movies.

MURIEL M. ALLEN

"Buzz"

Lincoln School, Freshman Girls' Club; Cloak and Plumv; Red Cross 2, 3; Biology Club 4.

Many of us know Buzz from the time she was treading the tortuous path of a freshman. Her musical accomplishments include playing both the piano and guitar. Although participating in tennis tournaments and swimming activities, she has managed to keep her scholastic marks very high. She has not decided definitely as to what her life's work will be, but she is considering fulfilling her dream of soaring above the clouds in the wide open spaces.

OLAF A. ANDERSEN

Ripley School, Hockey 1; Golf 4.

A serious attitude toward his classes, a cheerful word for his fellow students, and an unlimited capacity for hard work—these are the qualities which have contributed to Olaf Andersen's successful completion of the technical course. While golf and skiing are his chief outdoor activities, his profound interest in machinery has served him as an active indoor hobby. It is with little surprise, therefore, that we learn of his aspirations to a technical position in the aircraft industry.

NORMAN A. ANDERSON

"Andy"

Lincoln School, Track 1, 2; Football 1, 2; Basketball 1, 2; Tennis 4; Hi-Y 3; Log Staff, Junior Prom 3.

Ambitious, lover of fun and puns, good-natured, and a hard worker outside of school—that's Andy, a prominent fellow among his classmates. Andy is a well-known character on Main Street and knows the favorite beverages of most Melrosians. We will miss him when he enters the Coast Guard Academy next year.

DAVID O. ANDERTON

"Dave" "Professor" "Valley Financier"

Lincoln School. Orchestra 1, 2, 3; Band 1, 2, 3, 4; Track 1, 2.

Dave is a solid center on the slip-horn "jive". His fields of sports are golfing, tennis, and hunting at the valley. Well compounded sodas are Dave's specialty. Saunter up to Stearns and Hill's and his genial personality will make that luscious soda more enjoyable. On Saturday nights, clear the roads to Andover because he'll come roaring through. Around town he slides out mellow, exotic music for our dancing pleasure. Dave intends to further his education at the University of Maine.

PHYLLIS W. ARLING

"Phyl"

Lincoln School. Freshman Girls' Club; Girls' Club 3, 4; Chorus 1, 2, 3, 4; Glee Club 3; Up-to-Dates' Club 4.

Phyl has a sunny smile and a pleasant disposition. She is friendly but inclined to be a bit shy and reserved. Her hobby is knitting and she also does a great deal of reading. Phyllis plans to enter the Peabody Home for Crippled Children to take a year and a half nurse's training. We wish Phyl all the luck in the world in her chosen vocation.

FREDERICK A. ASHMAN, Jr.

"Flash"

Fred is one of the many boys who has entered Melrose High School from another city. He attended Malden Junior High and received his letter in football and track. Fred went to Malden High School for one year and entered our school as a Sophomore and made many friends. He is interested in Diesel Engineering, flying, and roller skating. Fred is planning to go to Wentworth next year and take up Diesel Engineering.

ROBERT P. AUTY

"Bob"

Coolidge School. Baseball 1; Tennis 3, 4; Speakers' Bureau 4. Treasurer 4; Outing Club 2, 3, 4; Secretary-treasurer 3, Vice-president 4; Hi-Y 3, 4; Class Treasurer 2; Business Manager of Log 4.

Certainly you must know Bob! He's the little fellow you see scurrying through the corridors before school with a handful of slips. He has been active in school organizations, having been elected to many offices. He is also active in several sports, and is often seen around the gym or tennis courts. Being scientifically minded, Bob plans to further his education by attending a technical college.

ELLEN G. BARCOCK

"Shorty" "Chummy"

Calvin Coolidge School, Freshman Girls' Club; Chorus 1, 2, 3.

Ellen has many interesting hobbies such as dress designing, interior decorating, and photography. She loves dancing, especially "Jitter-buggin'." Also Ellen is very, very fond of eating, and she wants to be a filing clerk after graduation.

HELEN E. BACON

Lincoln School, Band 1, 2, 3; Orchestra 1, 2, 3; Freshman Girls' Club 3, 4; Hockey 4; Log Staff.

Helen has visions of a Bohemian future, not as an inspiration for other artists, as her dark beauty and rare flashes of white teeth may suggest, but as a budding Rembrandt whose graduation from Mass. Art will be only the first of future successes. Helen breaks the rules for artists with her hockey, trombone, and history interests, but this and even her inherent neatness cannot hinder her in her artistic career.

OWEN W. BAILEY

"Krimpa" "Chick" "P-11"

Lincoln School, Band 1, 2, 3, 4; Orchestra 1, 2, 3, 4; Swimming Team 2, 3; Model R. R. Club 1, Secretary; Hi-Y 2, 3, 4; "Pirates of Penzance" 2; "Mikado" 3.

Chick, the drummer boy of the class, is that lad with the super smile whom we see in the drum section of so many local swing bands. Chick's aim in life, next to drumming, is to become a member of the Army Air Corps. Being "hep to the jive", Chick is sure to be a success regardless of which career he decides to "dig".

ROY W. BAKER

"Bake" "Doc"

Roosevelt School, Basketball 3, 4; Log Staff 4.

Bake is one of those Highland lads who are usually prominent in all social affairs. Hence, it is not surprising that he is known by most of the pupils of the school. Although not outstanding in athletics, he is capable in them all and has done a good job of playing basketball these last two years. In the near future he plans to attend the school for pilots at Boston Harbor; so, we may be well assured all incoming ships will be in safe hands.

JEAN A. BALFOUR

"Shrimp"

Roosevelt School, Freshman Girls' Club; Band 1, 2, 4; Orchestra 1, 3, 4; Girls' Club 2, 3, 4; Varsity Field Hockey 2, 3, 4; Varsity Baseball 2, 3, 4; Swimming Club 1, 2, 3, 4; Swimming Team 3, 4.

Jean, with her blonde hair and deep-set dimples, brings sunshine everywhere she goes. She belongs to the Rainbow Girls and participates in the local church activities. Besides all this, Shrimp blows a trumpet with gusto, leads most of the swimming and diving contests, and delights in making people happy. She is a perfect example of the "All-Around American Girl."

BERTHA BASSLER

"Bert"

Lincoln School, Outing Club 3.

Bertha's athletic life follows the seasons. In the winter, you'll find her skiing in the Berkshires; and, in the spring and summer, her chief pastime is baseball. Among her many hobbies are her two favorites—photography and reading. Because she possesses a genial nature and an active interest in other things, she will keep her patients in Nashua Memorial Hospital in a happy frame of mind.

ERNESTINE BEAUCHAMP

"Ernie"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4; Operetta 2; Red Cross 3; Lens and Shutter 3; Imprint Typist 4.

Everyone knows Ernie, the girl with the lovely complexion, who carries away the honors when it comes to dressmaking. Among her numerous accomplishments, tennis heads the list. Scarcely a day passes in the summer that she does not spend on the courts, serving aces to bewildered opponents. Her proficiency scholastically can be measured by her successful completion of the Secretarial Course, and Ernie expects to prove herself an efficient secretary.

ALICE BEREJIKIAN

"Al"

Calvin Coolidge School, Chorus 1, 2, 3; Imprint Typist 4.

Shining black hair, sparkling brown eyes, and a big smile—that's Al. Although her constant whispering and witty poems amuse everyone, Al has a serious side which is shown by her scholastic ability. Her hobbies include writing both poems and music, and dancing. Al's future is rather secure, and when we're all struggling through some other school, she'll be the boss's efficient secretary.

ELEANOR J. BERGSTROM

"Ellie"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4; Outing Club 1, 2; Science Club 4; Chorus 1, 2, 3.

Many people have come to know Eleanor through her friendly manner and thoughtfulness. Although a quiet girl, Eleanor has a vivid humor, and always provides plenty of fun for her friends. Her favorite sport is archery, for which she has received several pins. Ellie's hobby is collecting specimens of insects. Eleanor plans to enter the Arlington Synnemes Hospital in the fall.

DOROTHEA M. BERRY

"Dee" "Dot"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4; Biology Club 4.

Dot's ready smile and willing wit has won her many friends. Although not taking active part in any sports in school, she is always a willing booster. During winter vacations, she will always be found skiing in the mountains, and in the summer months she will be found building model airplanes and swimming. Dee plans to enter Boston Dental School and New England School of X-ray technique, and will, as usual, win high honors.

RICHARD BERTHEL

"Dick"

Roosevelt School, Freshman Football Team.

He is happy all the time and never appears to be angry with anyone. Dick played on the freshman football team and won his imminals. In his spare time he likes to fix up old cars. After graduating he hopes to go into the poultry raising business. His personality ought to make him a success in this kind of a business.

ROBERT E. BLOIS

"Bob"

Coolidge School, Band 1, 2, 3, 4; Orchestra 1, 2, 3, 4.

Bob is another one of our swing fans. He has not been connected with many school activities, because he plays in a band when he is not in school. According to Bob, he likes to work in a garden. Between you and me, Bob has got a good sense of humor. When he leaves school, he is going to follow up aviation. Some fine day when you are out walking and you see an airplane trying to do stunt flying, beware of Bob. If you ever have a joke to tell, don't tell Bob because he always takes it the wrong way.

CHARLES A. BODLEY

"Charlie" "Bodley" "Chas"

*Calvin Coolidge School, Football 1, 2, 3, 4; Hockey 2, 3, 4;
"Ramblings" 3.*

Charlie is well known in Melrose High for his friendly spirit and good nature. He has won many friends through his feats in football and hockey. Chas hopes to attend Dartmouth where he intends to study to fulfill his ambition to become a physical education teacher or coach. We all hope and know Charlie will be as well known and successful in college as he has been in high school.

RICHARD N. BOLAND

"Dick" "Bolo"

*Roosevelt School, Orchestra 1, 2; Rifle Club 2, 3; Swimming 3;
Hi-Y 4.*

Yes, this person upon whose countenance you gaze is Dick. His main interests at the present time are centered on the world of medicine, a very interesting topic. In his spare time, he is a sailing enthusiast, but only expert swimmers dare venture far from the mainland with Dick at the helm. Following graduation, Dick plans to attend Kimball Union and from there go to Hamilton.

RICHARD H. BOLTON

"Sparky" "Jacque I" "Valley Vice-President"

Lincoln School, Hockey 1, 2, 3, 4; Hi-Y 4.

Meet Sparky, the boy with the Ipana Smile. He is the hockey team's boy wonder and leading playmaker. Jacque's athletic abilities are likewise personified on the hickory sticks, as he is an ardent follower of turns and telemarks upon the northern terrain. His suave and congenial manner has brought him prominence of unquestionable quantity. Next year Sparks plans to go to Andover Academy, after which he will attend Dartmouth.

GLADYS BOUTILLETTE

"Glad"

Calvin Coolidge School, Chorus 1, 2; Girls' Club 3; Junior Red Cross Council 3, 4, Treasurer 3; Bowling Club 2.

When Glad stepped into the portals of Melrose High School, everything immediately seemed brighter. Every Saturday rain or shine, you'll see Glad at one of the local theaters, or at an athletic exhibition. Bridge is her favorite card game and one at which she excels. In the summer she can always be found lying on the beach, listening to her phonograph, and playing with her dog, Brownie. Next year Boston University will claim Glad's abilities.

ELIZABETH P. BOYD

"Betty"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4; Class Field Hockey 2, 3, 4; Swimming Club 1.

Above everything else Betty likes good outdoor sports. At any varsity game, too, you will find her cheering her team to victory. Betty, who is rather shy and retiring, enjoys long walks. Her favorite sport is field-hockey, and she puts everything that she has into it when she plays for her team.

MARSHALL BRACKETT

"Marny" "Marty"

Rifle Club; Track 2; Glee Club 2, 3, 4; Chorus 1, 2, 3, 4.

Although a person of few words, Marty's sense of humor and sly wit have proved to the Brethren that "still water runs deep." Always dressed in the latest shades of green or blue, Marny's weakness for gorgeous bow ties was the only contradiction to his apparent modesty. A "call to the colors" was answered by Marny before the completion of his Senior year.

DONALD R. BRIDGE

"Bud"

Calvin Coolidge School, Rifle Club 3; Radio 1, 2, President 2; Model Railroad 4.

Tall, good-natured, and bashful, best describes Bud who is the type of fellow that everyone admires. He does not participate in school sports, but he is by no means a stay-at-home, for a good deal of his time is spent in skiing or camping. Bud is an ardent student when it comes to anything in the mechanical field in which he hopes to find his vocation. He has Northeastern in mind for this study, and if his present ability and willingness are good indications, he will have no difficulty in obtaining what he wishes.

CONSTANCE BROWN

"Connie"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4; Varsity Basketball 2, 3, 4; Varsity Field Hockey 1, 2, 3, 4; Class Officer 3; G. L. A. Representative 2; Junior Prom Committee 3.

An engaging personality, winning ways, and exceptionally good looks have made Connie a popular member of our class. She is interested in sports and has been a star of field hockey and basketball for four years. Connie is a participant in school activities. She plans to attend Ward-Belmont Junior College, in Nashville, Tennessee, where she will continue with sports and commercial work. The best to you Connie - you deserve it!

EDWARD BROWN

"Ed" "Lefty" "Brownie"

Baltimore City College, Hi-Y 4; Baseball 3, 4.

Brownie entered Melrose High in his Junior year. Since coming here he has done well in his work, always being on the credit or honor list. His studies, however, have in no way kept him from athletics, as was shown by his great work on the baseball diamond. Ed's main hobby is model airplane making, but ping-pong is a close second. He hopes to continue his studies in college but has not definitely decided where.

IRVING B. BROWN

"Bud" "I. B." "Irv" "P-15"

Roosevelt School, Rifle Club 2, 3; Outing Club 3, 4.

In the winter-time, you will probably see Bud headed north with a pair of skis, for he is an enthusiastic skier and an officer of the newly formed ski club, the Death Dodgers. He is also Assistant Scoutmaster of a Boy Scout Troop, a job which takes up much of his time. I. B. plans to attend Northeastern to study Biology, and we're all sure that six years from now Irv will be a successful Biologist.

VIRGINIA A. BURBINE

"Gin" "Ginny" "Ginger" "Red"

Calvin Coolidge School, Freshman Girls' Club; Girls' Club 3, 4; Class Hockey 1.

Ginny is no stranger to our class, as she gained her knowledge here in Melrose. Ginger spends most of her time pursuing her hobby—dancing. She does not overlook roller-skating and badminton, as seconds. The school of Hardcraft and Occupational Therapy holds first place in Red's plans for the future.

IVAN T. BURNEY

"Tom"

Roosevelt School, Lens and Shutter 1; Hi-Y 4; Model Railroad Club 4, President 4; Rifle Club 1, 2, 3, 4, Treasurer 2, President 3, Executive Officer 4.

From the fact that one can usually see Ivan around the building until 4:00, one gathers that he participates in many activities. Very much interested in scientific subjects, he spends much time outside of school hours doing long experiments and increasing his scientific knowledge. When his clubs are added, he has a well-rounded program which should qualify him exceptionally well for the Coast Guard Academy.

DOROTHY C. BUSBY

"Dotty"

*Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4;
Chorus 1, 2, 3.*

Presenting to you Dotty Busby, the distinguished brown-eyed blonde, who is often seen in the school library. She is an active member of Rainbow and enjoys dancing. Dotty has planned to attend a business school to continue her education as a typist and a stenographer.

MARGUERITE L. BUTCHART

"Margie" "Butchie"

Roosevelt School, Chorus 4.

Here is one of the most happy-go-lucky girls in the class. Margie, who has a very soft place in her heart for underclassmen, wants to be either an airplane hostess or a nurse. She loves to sing and can find words for any tune, whether they fit or not. Bicycling, tobogganing, skating, and bowling are among her favorite pastimes. With one of the gayest of laughs and sharpest of wits, how can she help but get along in the future?

THELMA E. BUTLER

"Buttons" "Skippy" "Terry"

Lincoln School, Freshmen Girls' Club; Chorus 2, 3.

An amusing personality, sparkling blue eyes, and a happy smile that's Thelma. Her constant wit makes her a favorite among her pals. Although Thelma has not participated in many of the school's activities, she enters many activities outside. These include dancing, swimming, and bowling, which is her favorite. After graduation, Thelma plans to take up telephone operating as her occupation.

SIDNEY H. BUTTRICK, Jr.

"Sid" "Cy"

Calvin Coolidge School, Radio Club 1, 2, 3; Rifle Club 3.

Sid enjoys skiing and skating during the winter months and is a patron of the beaches in the summer. Sidney has built short-wave receivers and studied transmitters in his spare time. Although Sid is usually serious, he is jovial when there is occasion for it. He plans to attend Wentworth Institute to study electrical engineering.

CHARLES B. CAHILL

"Charlie"

Roosevelt School. Lens and Shutter 3, 4; President 4; Imprint 3; Outing Club 4; Ski Team 4; Chorus 1, 2.

Presenting, fellow classmates, unassuming, congenial, fun-loving Charlie Cahill. When Charlie isn't dabbling in the ice box or taking candid camera shots of someone in an embarrassing situation, he can usually be found skiing at some popular winter sports' resort. He was an outstanding member of this year's ski team. Charlie intends to further his education at Boston University.

FRANK W. M. CAIN

"Bud" "Caino"

Lincoln School. Freshman Chorus; Baseball 1; Hockey 1; Basketball 2, 3; Football 1, 2, 3, 4; Hi-Y 4.

This friendly young man is particularly well known because of his sense of humor. Bud's trademark is his hearty laughter which can very often be heard echoing through Melrose High. Bud enjoys playing the harmonica and piano, but very little can be said about his progress in these activities. Bud's future is rather undecided. He is planning on either a school of aeronautics or an engineering school.

ROBERT M. CALDER

"Bob" "Flash"

Roosevelt School. Rifle Club 1, 2, 3, 4; Secretary 2; Outing Club 3, 4; Lens and Shutter 2; Hockey 3, 4.

Ever hear of "Dead Eye Dick?" Here he is in person. Bob has a peculiar knack for making five shots on a rifle target appear as one. He is also no novice at skiing and sailing. When he isn't busily engaged in outdoor activities, Bob may be found playing some of his collection of hot swing records. In the near future he plans to enter the Mass. Nautical Training School.

LEO CALLAHAN

"Cal"

Coolidge School. Band 1, 2, 3, 4; Orchestra 1, 2, 3, 4.

Although Leo did not participate in any sports or club activities, he is interested in football and basketball. During his years of high school he earned his "M" in band and, he also did fine work in the orchestra. Leo's favorite recreations outside of school are dancing and bowling. Upon graduation, he plans to study the mechanics of the automobile.

CATHERINE T. CALT

"Kay" "Katie"

Roosevelt School, Girls' Club 2, 3, 4.

Catherine has become very well known for her good disposition and friendly attitude. Kay is interested in all summer sports especially swimming and tennis. Her hobby, photography, has enabled her to experiment in taking many pictures. She has chosen secretarial work as her career and we all know she will reach the top.

LAWRENCE B. CAMERLIN

"Ben" "Larry" "Lovey"

St. Mary's School, Model Airplane Club 1.

Although Lawrence has not participated in many activities, he is an ardent follower of most of them. His chief interests lie in sports and dancing. His two successive decathlon medals are fine evidence of his gymnastic ability. Following graduation he plans to study electric welding.

BARBARA L. CAMPBELL

"Barb" "Barbie"

Roosevelt School, Freshman Girls' Club; Junior Red Cross Council 1; Outing Club 3; Girls' Club 2, 3, 4.

Did you just hear an infectious giggle? Then, ten-to-one, it was Barbie. She's the little girl who is the perfect personification of a fine sense of humor and an easy-going disposition. Tennis is her favorite sport, and music, particularly piano, is her favorite form of relaxation. Remember her name—you will be hearing more of her in the future!

MILDRED P. CAMPEA

"Millie"

Calvin Coolidge School, Chorus 2, 3; Imprint Typist 4.

Millie is the girl who is always in such a rush to be the first one dressed in Gym. The reason for all the rush is that Millie wants to get upstairs and play her favorite game, badminton. The other sports that she likes are skating, bowling, and swimming. Through all four years of high school, she has received high marks in all her subjects. This summer Millie hopes to enter the business world as a secretary.

KEVIN P. CARBIN

"Key"

St. Mary's School.

Key enjoys swimming, basketball, boxing, and outdoor life. He is also adept at things mechanical. Books on travel and biographies hold his interest.

Key is always industrious, and his outside work, while limiting his pleasures, has not affected the high standard which he has consistently maintained in his studies. Genial, fun-loving, reliable, and unassuming, he is well known as a fine friend and a fine fellow.

When he sails, after graduation, with the navy, our best wishes and "bon voyage" go with him.

THOMAS J. CARBIN

"Tom"

St. Mary's School. Rifle Club 1; Photography 2; Gymnastics 2.

Tom's hobbies are reading classical books and listening to classical music. He really enjoys these hobbies and devotes much time to them. He particularly likes travel and cruising under sail. His interest in boats and his attraction to the sea decided Tom's career. He plans to enter the United States Merchant Marine.

FRANKLIN W. CARNEY

"Carn"

Calvin Coolidge School. Hockey Team 1, 3, 4; Band 1, 2, 3, 4.

Franklin first started entering wrong classes, on false directions from seniors, in 1937. He was manager of the hockey team during their best year and has won the friendship of both pupils and teachers. Outside of school Frank has already begun to carve out his way in the world but is also becoming an authority on the newest and oldest of swing. When any of his many friends miss him, he can usually be found at the Boston Garden watching a Bruin's or a Pie's hockey game.

DORIS M. CARPENTER

"Dot" "Dottie"

Coolidge School. Cloak and Plume 1; Freshmen Girls' Club; Class Field Hockey 2; Outing Club; Glee Club 2, 3, 4; Chorus 1, 2, 3, 4.

The urge for music gave Dot honorable mention on the Girls' Club amateur program, but this was only the beginning of her singing. She delights all her friends with her songs. Along with her musical accomplishments, she enjoys participation in athletics. Some music school will claim Dot in the future.

PRISCILLA M. CHEEVER

"Pussy" "Pris" "Kit"

*Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4;
Basketball 1, 2.*

One who knows Priscilla well is impressed by her pleasant personality and her eagerness to cooperate with her fellow students. The cheerful manner in which she conducts herself has won her many friendships. Pussy likes all sports and has participated in most of the sport activities of the school. Model airplane building and music are her chief interests. To do some kind of secretarial work and attend a business school are her plans for the future.

M. ANNE CHISHOLM

"Mac"

Roosevelt School, Freshman Girls' Club; Nauticus 1; Swimming Club 1; Red Cross Council 2; Girls' Club 3, 4; Euclidean Society 2, 3, Vice-president 4; Junior Tennis Team Manager 3; Imprint Staff 3, 4, News-editor 3, 4; Editor of School Life 4; Parliamentary Law Class 4; Slide Rule Class 4; Log Staff.

Anne must have gained her sunny disposition from the nine years she spent in Cuba as a child. Her favorite subject is English; her favorite sports: tennis, swimming, and badminton. As her list of activities shows, she has been interested in school publications. Next fall Anne plans to major in English at Radcliffe College.

LUCILLE CLARK

"Cillie" "Lu" "Lucybelle"

Calvin Coolidge School, Freshman Girls' Club; Girls' Club 3, 4; Swimming 2, 3; Baseball 2, 3, 4; Field Hockey 2, 3; Outing Club 3, 4.

Who is that laughing brown-eyed Miss, who, four short years ago, entered Melrose High as a shy and bewildered Freshman? Yes, that's Lucille! Since then, she has engaged in many sports among which are her favorites, swimming and horse back riding. She is full of pep, and an ardent supporter of school activities. Next year Lucille hopes to attend Wheaton College, where her future looks bright.

MARION H. CLARK

A natural when it comes to class work, Ed has succeeded in attaining high honors; yet he has had time to become No. 1 man on the tennis team and to ski proficiently. He is one of those few envied fellows who can study with no apparent effort and have a great deal of time to take part in outside activities. Scholastically his interests turn toward mathematics in which he hopes to gain a Master's degree. Professor Eich sounds awe-inspiring, doesn't it?

Remember the fellow who strode through the corridors with a smile on his countenance which usually meant that something was brewing? That was just Don. Dzz answered the "call to the colors" although he admits that it really was hard deciding between the Marines and dear old M. H. S. Arlington seemed to be Don's favorite haunt in the States, but in Cuba he and buddies are undoubtedly giving the natives some stiff competition.

His over-generous allotment of physique tells of his adeptness at all sports. Bob ruins the theory "Big but dumb," for he is an Honor student; and he was the brains of the Football Team. Blonde hair, sparkling blue eyes, and a sweet smile are only a part of Dottie's winning personality. She was rather shy at first but four years at M. H. Arty is a real worker, both in school and store. He is the proud owner of a car, but manages to save many of his pennies in spite of that fact. We predict a man-made future for a man-made man, Arty Gould.

ROGER A. HOWARD

"Rog"

Roosevelt School. Football 1, 3; Hockey 1; Model Airplane Club 1; Baseball 4.

A Tyrolean hat, red-gold hair, a glimpse of something maroon and gray, and Hutchie is schussing down a slope at the eastern Slope Ski School. Although president of a ski club, organizer of a ping-pong club, and possessor of a cup for her tennis playing, she has always found time to care for the Biology Club's little white rats and to set out, at any risk, into whatever venture the "gang" had contrived for that moment.

JUNE HUTCHINS

"Junie" "Hutch"

Calvin Coolidge School. Freshman Girls' Club; Chorus 2; Girls' Club 3, 4; Crafts Club 4; Imprint Typist 4.

The business world will welcome this girl of varied interests.

FRANK J. JACKMAN

"Snookie"

Rifle Club, Vice-President 4; Hi-Y 4.

Snookie entered his Freshman year from Greenwood and because of his size was forced to abandon participating in sports. As he grew nearly a foot in the last two years it was too late to enter sports. As much as he would like to have baseball, football, hockey, skiing or swimming as his life work he has chosen rather wisely, to tinker with automobile engines. The plans for the future are, as yet, indefinite but it seems as though he will make a success if he enjoys the work.

GILMAN D. JACKSON

When one hears a cheery "Hello" and a slight tap on the shoulder he is sure to find himself looking at the smiling and cheerful countenance of Gil Jackson. Gil is well liked by all who know him because of his pleasing personality and friendliness.

Gil has done many wonderful things with his model airplanes; but only as a hobby, for his real ambition is, believe it or not, to own a chain of hot-dog stands.

KENNETH R. JOHNSON

"Kennie"

Calvin Coolidge School. Navigation Club 4.

The high reputation of Melrose High School depends on steady reliable people like Kenneth Johnson. Kennie's love of school has kept him from missing even one day during his four years here. He has been so busy with outside interests that he has not had much time to participate in school activities or sports, but he does enjoy hiking and fishing. Kennie's high marks and interest in mathematics assure him success at the engineering school he plans to attend next year.

RUSSELL L. JOHNSON

"Russ"

Lincoln School. Model Airplane Club 1.

Russ is one of the least talkative boys in the high school. Perhaps that is why he is well liked. His favorite hobby is the building and flying of model airplanes. We all wish Jo the best of luck as in the near future she will attend Colby Jr. College.

KIMBALL JONES

"Kim"

Roosevelt School, Outing Club 3, 4; Tennis 3, 4.

From here he expects to go to Kimball Union and thence to Dartmouth, where he, no doubt, will do much with his skiing and psychology.

LOIS H. JONES

"Jonesie" "Loey"

Roosevelt School, Outing Club 3, 4; Chorus 4; Freshman Girls' Club; Girls' Club 3; Red Cross Council 3, 4.

Golden-hair, hazel eyes and a brilliant smile are the features which make Lois one of the "smoother Susans" of our class. Although she does not excel in school activities, she participates actively in sports outside of school. She leaves Melrose in the summer to add color to Ipswich, where she has perfected the art of swimming and boating. Her sense of humor and power to please will surely prove an asset to Duke University.

You've probably seen him either on the tennis courts or the golf links, for these sports are his favorites. Jack is going to a prep school next fall, and then he plans to enter Dartmouth. He hopes to make cartooning his life work.

ROBERT E. KEARNEY

"Bob" "Barrel" "Carney"

Calvin Coolidge School.

Bob is an excellent student and has found little trouble in maintaining a high scholastic standing in Commercial subjects. JANET KEMP

"Kewpie" "Kempie"

Girls' Club 3, 4; Masque and Wig 4.

Calvin Coolidge School, Freshman Girls' Club; Girls' Club 3, 4; Outing Club 3, 4; Chorus 2, 4; Biology Club 1.

A burst of laughter is heard, you look around but all is calm and serene, yet you know it came from Edie. She is always willing to take part in things which contain plenty of excitement and action. Because of her congenial nature and vibrant personality, Edie will never lack friends. In reality "Plenty of color and no corn" but in Butch's case "lots of color and plenty of 'Comm.'" Edie plans to be a faithful follower of Florence Nightingale.

Bob's pleasant manner in High School and outside, has made him one of the most popular boys of our class. His athletics have been mostly confined to tennis, and skiing, and he is considered an expert in both of these. During his four years, Bob's outside interests have not interfered with his studies, as he has retained a high grade in all his subjects. Next year, Bob plans to attend Dartmouth, then on into the business world.

This summer cottage in Scituate has been a vacation hangout for a prominent group of fellows all through high school. Although a certain teacher thinks he should be on the high honor roll, he has not gone higher than the honor roll. We are all sorry that Mal's ring hockey team, the Trojans, did not do better. Few people know why the Metro Hockey Team had such a good team this year. Mal and Harry have the correct answer.

PHYLLIS B. KNIGHT

"Phyl"

Lincoln School, Freshman Girls' Club; Cloak and Plume; Biology Club 4; Chorus 1, 2, 3, 4.

If you number among those lucky ones who know Phyl, you'll agree that she'll make a very fine nurse. She has such a friendly, easy manner that you naturally have a good time. She excels in making her own clothes; and, wherever there happens to be a page missing from a magazine or a hole in a newspaper, it is probably where Joy has cut out an article or a picture of a leading band. Mike has earned the reputation of being a truly outstanding athlete. He was the leading defenseman on this year's championship hockey team. On the football team he was a veritable mountain on the defense, at the right-end position. The remarkable thing about Mike is his modesty. "Barb" "Tinky"

Roosevelt School, Freshman Girls' Club; Band 1, 2, 3, 4; Chorus 1, 2; Swimming 2; Girls' Club 3, 4; Basketball 4; Baseball 4.

Just a glance at Sunny and you know you have met someone you'd like to see more of. Her fun-loving nature, cheery smile and individuality are the envy of many. They call her "cupid", but her resemblance to cupid begins and ends with her ability and skill in archery. Other sports she spends long hours in are bowling, skiing, and roller skating. NANCY WASHBURN

"Nance"

Roosevelt School, Freshman Girls' Club; Girls' Club 2, 3, 4.

Do you want to hear a good joke or have a good time? If you do, Nance is just the person for you. This gloom dispeller, in what little spare time she has, bowls, plays badminton, and swims. Swimming, however, is her favorite sport, and 'tis said she devoted one whole week in the summer of '40 to the gentle art of diving. If Nance's high school record, both academic and otherwise, be any indication, she should sail right along in her work in dietetics at Simmons.

Next year you will find Phil's name on the Northeastern honor roll.

Red wells has long been a great favorite among his classmates. This has been due to his winning personality and his determination to forge ahead. His determination is proved by the spirit he showed in running over a tough three mile Cross-country course. This, incidentally, is a sport in which size is an asset. He was that red-headed jumping-jack that led the cheering section this year. Red has ambitions of being a pilot in Uncle Sam's Navy airforce. We hope he succeeds.

WALTER H. WELLS

"Walt"

Calvin Coolidge School.

Walt was one of the Melrose High School boys called to the service of his country; and he was well prepared for he had served in the National Guard the summer previous. The hidden soul of harmony, a bird like singer, the spirit of optimism — that's Andy. Fair weather invariably finds her cantering in the Fells or canoeing at Lake Ossipee. By the way, have you seen her attempts at riflery? Better bring a new target. Her smile has brightened the way for all of us and will surely brighten some office or Emerson College.

ROBERTA D. WHIPPLE

"Robie"

Calvin Coolidge School, Freshman Girls' Club; Cloak and Plume; Chorus 1, 2, 3; Poetry Club 2, 3, Treasurer 3; Girls' Club 2, 3, 4; Swimming 2; Imprint 3, 4, Art Editor 3, 4; Speakers' Bureau 3, 4; Scribe 3, 4; Greek Club 3, 4; Log Staff.

Originality her trend,
Her sense of humor has no end;
Drawing is her one intent,
And in this way her time's been spent.
We all know, 'tis very plain
That Melrose's loss is Mass. Art's gain.

CONSTANCE M. WHITCOMB

"Connie" "Whit" "Tim"

Roosevelt School, Freshman Girls' Club; Riding 1; Girls' Club 3, 4; Imprint 3, 4; School Life 3; Field Hockey 3, 4; Log Staff.

Zoom! There goes Connie. Who else could possess that cute nose and bright smile? We speak a few words with her, and then she is off to Imprint or Log meetings or to the gym. In spite of Connie's popularity and participation in numerous activities, her studies do not suffer. Connie is especially talented in art, and will continue her drawing after graduation.

B. JEAN WHITFORD

"Jeanie"

Lincoln School, Chorus 1, 2, 3, 4; Freshman Girls' Club; Cloak and Plume.

Jean is interested in dramatics and radio work, and she hopes to find a position in the field of radio. Among Jeanie's many admirable traits are a naturally bright disposition and a winning smile. An accomplished elocutionist, Jean's witty monologues have brought pleasure and laughter to many faces. The best wishes of her friends accompany her.

ROBERT WILLIAMS

"Bob"

Lincoln School.

During lunch periods when humor is floating around the table, there is one Bob Williams who always contributes his share of the wit. Bob, for the last four years, has been busily engaged in drug store work. He started work as a bottle boy and has worked up to the position of clerk. In the future, he plans to follow pharmacy and own a chain of drug stores, but if necessary, he may enter the navy as a pharmacist.

CHARLES B. WILLS

"Charlie" "Willie" "Kingpin"

Roosevelt School. Rifle Club 1, 2, 3; Outing Club 3, 4; Lens and Shutter 1, 2.

Clatter! Bang! Here comes Charlie Wills in his ancient, battered jalopy. His favorite sport is basking by the fireside at a house on First Street. Happy-go-lucky Wills has worked industriously during his stay in M.H.S., and we know he will continue to do so in the future. Next year he plans to take an engineering course at Duke University. Best of luck Charlie; you will need it.

VIRGINIA R. WILSON

"Ginny" "Ginger"

Roosevelt School. Girls' Club 4; Up-to-Dates Club 4.

"A smile for all" seems to be Ginny's motto for she is never seen without one. An enthusiastic sportsman, she excels in bowling, bicycle riding, and roller skating. Someday she hopes to be able to take an airplane trip. Ginny's plans for the future are somewhat indefinite, although she may study interior decorating. Her artistic ability will certainly aid her in becoming a more efficient decorator.

CHARLES M. WISWELL

"Wiz" "Oliver"

Calvin Coolidge School. Cloak and Plume 1; Masque and Wig 2, 3, 4, Treasurer 4; "The Bat" 3; "What a Life" 4; Imprint 3; Speakers' Bureau 3, 4, Sergeant-at-Arms 3.

Editor, actor, orator, Wiz has maintained honor grades throughout high school. There has hardly been a stage performance of any kind in the past four years in which Wiz has not taken part in some way. Wiz is an ardent sports fan and especially likes tennis. He plans to continue his studies at M. I. T. and perhaps become a chemical engineer.

KATHLEEN D. WISWELL

"Butch" "Wizzie"

Calvin Coolidge School. Freshman Girls' Club; Field Hockey 3, 4; Basketball 2; Baseball 2, 3, 4; Girls' Club 3, 4, Vice-President 4; Log Staff 4.

The three most popular aspirations of a high school pupil — namely, honor scholarship, athletic prowess, and multiple friendships—are the nonchalant accomplishments of Butchie. With Major League Baseball and horses her interests, she prefers the Bees in the one, and sturdy "whites" in the other. She and certain teachers disagree about the baseball situation, but in spite of this, both teachers and friends wish her the best of luck for next fall when she will grace the portals of Simmons College.

JOHN T. WOODLAND

"Johnnie"

Calvin Coolidge School, Imprint 3.

When one is looking for an intelligent, industrious person, he need look no further when he finds John Woodland. He has always maintained high grades and taken an interest in his work. His recreations include collecting stamps, playing ping-pong, and hiking. Next year he plans to enter Boston University, and after that hopes to become a teacher.

ELIZABETH WOODWARD

"Betty" "Lizzie" "Woody"

Roosevelt School, Freshman Girls' Club; Girls' Club 3, 4, Secretary 4; Field Hockey Junior Manager 3, Manager 4; Orchestra 1; Band 1, 2, 3, 4; Riding Club 1; Bowling 2.

If, when you are walking in the school corridors, you should happen to hear a genial burst of laughter, you may be pretty sure of finding Betty Woodward around the corner. Although she is a modern Gabriel in the band, she is not always an angel in the classrooms. This popular senior, whom you have doubtless seen bustling around the building in her capacity of manager of the field hockey team, is not yet definite as to her future, but hopes to continue on to some college.

ELIZABETH H. WRIGHT

"Betty" "Bet"

Roosevelt School, Clerk and Phone; Freshman Girls' Club; Chorus 2, 3; Junior Red Cross Council 3, 4; Girls' Club 3, 4.

Betty, the best pal anybody could wish for, is well-known for her cheerful giggles. She is an ardent football fan and enjoys swimming and basketball. A great deal of her leisure time is spent knitting and listening to swing music. Bet plans to further her education in the domestic science field.

RUTH B. YORK

"Yorkie"

Roosevelt School, Field Hockey 2, 3, 4; Baseball 2, 3, 4; Bowling 2; Basketball Mgr. 3, 4; Freshman Girls' Club; Girls' Club 3, 4; Speakers' Bureau 3, 4.

A short, active girl with big brown eyes and a bright smile — that is a thumbnail description of Ruth York. Throughout her high school career, Yorkie has shown her prowess as an athlete, her ability as a student, and her facility in making friends. Her personality is the kind that just grows on you. Yorkie loves music, her preference being the opera. Next year she plans to enter Graceland Junior College in Iowa where she will continue her study of languages and music.

MARY L. CREEDON

"Butch" "Lee"

Lincoln School. Freshman Girls' Club; Chorus 1, 2, 3;

Hockey 1, 2.

Never ceasing to whisper in her class rooms, Mary has made many a person laugh by her witty remarks. She has not participated in sports herself but has supported her school football team faithfully. Her hobby is going to movies, having a good time, and eating ice cream. She has consumed gallons of ice cream while attending M. H. S., and she has majored in Frozen Pudding. Watch out for that girlish figure, Butch!

CHARLES A. COLEMAN

"Chick" "Chillybones"

Coolidge School. Varsity Football 2, 3; Track.

Although not the fastest boy in the High School, he is one of its greatest (s)milers. Charles is not the boy to be trifled with; he takes boxing lessons outside of school. Besides his pugilistic activities, he is also a member of the boys' club called "Crusaders". His likes include flashy clothes and jitterbugging. Charles hopes to get in the government as a letter carrier. If a good smile will insure success, he is bound to go ahead in any field he endeavors to enter.

LUCY G. MAZZA

Roosevelt School. Freshman Girls' Club.

For five months of her senior year, Lucy was forced to be absent from school because of the after-effects of an accident which occurred in the middle of the winter. We all missed seeing her in the corridors. While she was sick and recuperating, Lucy cultivated her mania for collecting things, especially snapshots. Her favorite sport is swimming and she hopes to be able to swim a good deal this summer. Following graduation Lucy plans to be a salesgirl.

VIOLET YODEN

"Vi"

Calvin Coolidge School. Freshman Girls' Club; Girls' Club 2, 3, 4;

Imprint Typist.

Everyone who knows her agrees that Vi has a cheerful disposition and a sparkling personality. She left school in the middle of the year because of ill health, and the best wishes for her early recovery go out to her from all her fellow students. She plans to enter the business world and will surely be an asset to the organization that is fortunate enough to obtain her service.

THE FRESHMAN GIRLS' CLUB

President—SHIRLEY JOHNSON

Secretary—ELLA GIOVINO

Treasurer—GAIL MACHUGH

Sponsor—MISS SACHS

The Freshman Girls' Club helps newcomers to Melrose High to become better acquainted.

Meetings are held twice each month and before much time elapses officers and a program committee are elected.

Various activities are enjoyed throughout the year, such as: A Raggedy Andy party in the gym with prizes for the worst outfits, Washington movies shown by Mr. McPheters, contests and other parties throughout the year, and the grand finale — the Spring Dance!

At the close of the school year, girls from all parts of the city have worked together and become friends.

GIRLS' CLUB

President—MARJORIE MACLACHLAN

Vice-President—KATHLEEN WISWELL

Secretary—BETTY WOODWARD

Treasurer—JOANNE JONES

Corresponding Secretary—BARBARA McCANN

The past year of Girls' Club has been unusually entertaining and instructive. Attendance was large because of the fine programs arranged by Elaine Crawford and her committee. From the opening meeting last fall to the closing meeting this spring, the girls enjoyed hearing many fine speakers, taking part in contests and home talent programs, and meeting with Hi-Y on one or two occasions.

Marjorie MacLachlan certainly proved herself an able president, and is to be congratulated for her excellence.

The Movie Nights sponsored by Girls' Club have been a great success. With the money earned, the girls bought a screen for the school, and with the aid of a few more shows, they hope to buy a sound projector to present to the school.

The girls of the senior class all agree it has been worth their while to belong to an organization such as Girls' Club.

HI-Y CLUB

President—ROGER WASHBURN

Vice-President—CHARLES HOLT

Secretary—ROBERT KIMBALL

Treasurer—STEPHEN D'ARRIGO

Corresponding Secretary—EDWARD EICH

With the Hi-Y Club at the peak of its enrollment this year, it enjoyed a very successful season. In addition to the weekly meetings, the club gave aid to such organizations as the Parent-Teachers' Association, Red Cross, and Y. M. C. A. Delegates were sent to the Mystic Valley Hi-Y Conference, the Hi-Y Officers Conference at Camp Frank A. Day, and the Older Boys' Conference at Pittsfield.

There were many interesting meetings throughout the year, among which were Lieut. F. C. Gibson of the U. S. Coast Guard; "Wheels Over Africa", a movie; Capt. Gainard, who told us some of his experiences; Junie Stubbs of the Boston Olympics, who spoke on hockey; and a few sport nights.

The success of this year's club, which has been enjoyed and made possible by the whole-hearted cooperation of all the members, should be a good example for next year's club to emulate.

MELROSE HIGH SCHOOL BAND

FRANCES D. MONT, *Conductor*

The Melrose High School Band has a membership of seventy students deserving of great praise, for this is an organization that is not a club of diversion alone but one that means much work and sacrifice.

The band, as a unit, plays for the football games and various assemblies. This year they took part in the Hockey Banquet, also.

The dedication of the Commander Robinson Memorial Tablet was made more impressive by the band's playing on the route of march, as well as at the exercises.

This year the All Girls' Band is again to be a feature at the Annual Concert in May. When we read so much of the new development of the girls' bands, we are proud to know our school has sponsored one for six years.

One of our members was selected from a group of young amateurs to be a soloist at the Amphion Club Concert. We are proud that the band encourages the progress of young musicians.

A former member has this very year earned enough with his music to be able to pursue a college career. This is the aim of the organization — to help make possible through the knowledge and achievement of music, the happiness and progress toward good citizenship so necessary through life. Even the discipline, well exemplified, has proved valuable at this early date by many young men who return to tell of their military school training.

Again we look forward to the concert with its solos, and we know under the able leadership of Miss Frances Mont we will spend an evening of appreciation of our High School Band.

MELROSE HIGH SCHOOL ORCHESTRA

FRANCES D. MONT, *Director*

The High School Orchestra does not have as many public performances as the band; nevertheless, it is as serious in its endeavor.

The orchestra works hard to help make the yearly operettas successful and this year played for the performance of the "Gondoliers."

Again we look forward to an orchestra assembly, for it is at this time that the school is best able to hear its own members in their work as soloists.

Some of the orchestra violinists assisted in one of the special works of the Amphion performance. At the Merry Go Round show the members were also represented with solos.

The orchestra will be heard at our graduation exercises.

CLOAK AND PLUME

Forty-nine members of the Freshman Class qualified for membership in the Cloak and Plume Society last September. At the October meeting the following officers were elected: John Cowles, president; Miriam Arkwell, vice-president; Joanne Wilder, secretary; Carol Campbell, treasurer. In November at the regular Freshman Club Assembly, Cloak and Plume contributed three numbers, an electrician and a curtain man to the program. The club programs have been quite varied this year. They have included a meeting on the art of make-up, one on diction, a program of original playlets, and two plays.

THE EUCLIDEAN SOCIETY

President—ROSALIE RUSSO

Vice-President—ANNE CHISHOLM

Chairman Program Committee—MARGARET NUTTER

Secretary—CLAIRE CONDELL

Treasurer—EDWARD EICH

The Euclidean Society at its meetings this year has considered the contributions that the Science of Measurement can make to a thorough self-analysis. If an individual is to make the most satisfactory adjustment to everyday living a complete and accurate knowledge of the high and low points of his abilities is absolutely essential. The members have taken tests and interpreted their scores in fields such as the following: personality, interests, clerical ability, mechanical ability, ability for teaching, nursing and so forth. As a composite such scores greatly increase the possibilities of predicting later success in a vocation by identifying at an early stage the presence of characteristics possessed by those who have become successful.

IMPRINT

Editor-in-chief—CAROLINE LENTILHON

Associate Editor—LEONARD LEVING

News Editor—ANNE CHISHOLM

Business Manager—ROBERT LICHTENSTEIN

June 1941, brings to a close the fourth successful year of the school newspaper, the *Imprint*. This year the circulation has been such that the *Imprint* has reached a larger number of students than ever before.

Twenty-eight juniors made up the *Imprint* class. This is an exceptionally large number for this class. In addition, eight members of the Senior class returned to serve as the department editors.

This year stress was laid upon the writing of editorials. Each junior apprentice was assigned to write an editorial for a particular issue of the *Imprint*. The editorials were, therefore, apropos to the time of the year in which they were published.

More emphasis was also laid upon the girls' sports activities.

School Life, the literary supplement to the *Imprint*, was issued twice, once in December and once in June. These issues differed from those of 1939-40, in that vari-type was used and in that the cover was colored and of stiff paper. Selected members of the *Imprint* staff served on the *School Life* staff.

JUNIOR RED CROSS

President—DORIS HART

Vice-President—JANE MURRAY

Secretary—NANCY EALES

Treasurer—NANCY HANSON

The Council has done much during the year for the benefit of many.

Early in the year the members voted to send money to the Canny Creek School in Kentucky.

The Council members decorated various store windows for the Senior Council Drive. The members of the Welfare Committee made favors for the home at Rutland.

At Christmas time the Welfare Committee gave holiday baskets to four deserving families in Melrose. Also at Christmas time the Council sent candy to Bedford.

The Junior Council with the help of the Senior organization will send two delegates to Washington in April.

THE JUNIOR SPEAKERS' BUREAU

President— FRED MACGREGOR

Vice President— FRANCES TIBBETTS

Secretary— EDWARD GALLAGHER

The Junior Speakers' Bureau was organized in 1910 to provide an opportunity for training in public speaking and to prepare freshmen and sophomores for membership in the Senior Speakers' Bureau which is open to the upper classes only.

This year twenty pupils, ten boys and ten girls, applied for membership and were accepted. Meetings were held on the second Thursday and the fourth Monday of each month. The programs consisted of formal debates, informal discussions, and declamation of selections from famous speeches. Standing before a group in the school auditorium or in the Little Theatre, the members gained experience in poise as well as in clear, audible, and forceful speech.

LENS AND SHUTTER CLUB

President—CHARLES CAHILL

Vice-President—WILLIAM MACLEOD

Secretary-Treasurer—PAUL DELARY

Sponsor—MR. REYNOLDS

During this year, 1940-1941, the Lens and Shutter Club, operating under the sponsorship of Mr. Reynolds, has surged ahead with new enthusiasm. Interest has been shown in every phase of photography since the members of the club vary in photographic experience (from one to four years). Varied programs were arranged in an effort to meet these wide interests. The beginners were taught how to develop films, how to print, and how to enlarge their pictures. The club competition held in the month of March provided opportunities for the more experienced members to exhibit their work. Between two and three dozens of mounted pictures were entered, demonstrating the originality and artistry of the club members. Meetings were held every two weeks on Mondays during the stationary period. The average attendance of these meetings was estimated at between fifteen and twenty pupils. The club furnished materials for the work carried on by its members.

MASQUE AND WIG SOCIETY

President—NORMAN RICHARDS

Vice-President—EMILYBETH OYSTER

Corresponding-Secretary—RUTH WALDEN

Recording Secretary—JOYCE MERRILL

Treasurer—CHARLES WISWELL

The Christmas play was "The Other Wise Man", a story of a wiseman who never found the Christ Child.

We invited several other dramatic clubs to an evening meeting. Each club gave a short play after which we had dancing and refreshments. Present were Malden, Revere, Saugus, Stoneham, and Everett.

The annual play was "What A Life" with Fred Lacey in the leading role.

The two divisions of the club were formed; The Radio Club to give plays on the radio and our school microphone, and the Short Play Club to work on one act plays for entertainment at meetings.

Speakers for the year have included our graduates, Miss Doris Clinkard, and Mrs. Buttrick, Miss MacIntyre, local voice teacher, and Mrs. Tibbetts of the Leland-Powers School.

MODEL RAILROAD CLUB

President—IVAN BURNEX

Secretary—ROBERT SWAINE

General Superintendent—DONALD BRIDGE

Construction Engineer—JOHN LEAVITT

This marks the first year of the Model Railroad Club. The club got its start when Mr. Horace Crandall of Garfield Road generously allowed us the use of his model railroad. The gauge of this railroad is H. O. This signifies that an eighth of an inch equals one foot. Run on six volt current over approximately eighty feet of track, the train may be reversed and switched with the efficiency of the large train. There are numerous tasks connected with the railroad among which are, electrician, landscaper, construction engineer, and general superintendent. Mr. Mansur, our adviser, has generously given his time and knowledge to supervise our construction activities. We hope that in the future the Model Railroad Club will take its place among the foremost organizations of Melrose High.

NUNTIUS

Editor-in-Chief—MARIANNE RAND, ROBERT GOOD

Literary Editors—RUTH CARLSON, DANIEL JAMESON

Adviser—MISS KERSHAW

Nuntius is now in its seventeenth year of publication. It represents the literary efforts of the freshman and sophomore students of Latin with only occasional assistance from upper classmen. The paper has a subscription list of almost four hundred members from all the classes. Nuntius is also on the exchange list of about fifteen schools scattered over the country.

The contents of Nuntius are partly in Latin, partly in English, and are always related to the study of Latin.

OUTING CLUB

President—WILLIAM ROBINSON

Vice-President—BETTY MORSE

2nd Vice-President—ROBERT AUTY

Secretary—ARTHUR FLINT

Corresponding Secretary—CHARLES FIFIELD

Treasurer—CAROL WILDES

The Outing Club is one of the well known organizations of the high school. It was founded in 1936 for the purpose of giving the student who could not participate in interscholastic sports a chance to compete in outdoor activities.

The club has had a very successful year. One of the first activities of the year was a Sport Dance. It was held in the school gymnasium and drew the largest number of the student body of any of the year's dances.

Roller skating parties at M. I. T., hot dog roasts at Mount Hood, hikes, and regular meetings of the club were enjoyed by large groups. A sleigh ride and a trip on the snow train were planned but, because of poor weather conditions, were cancelled.

The team later went to Gifford, N. H. to enter the interscholastic championships. They came in fourth in the cross country against 12 New England Schools. William Robinson again brought honors to his team by having the third longest jump in the jumping contest the following day.

There is a Girls' Ski Team whose members are: Betty Morse, Adelia Hutchins, Olive Mortenson, Annette and Jeannette Stone, Marjorie Thompson, Ann Arnold, and Betty Bray. This team did a great deal toward winning the Dartmouth Trophy, although they did not compete in any other meets.

SPEAKERS' BUREAU

President—EDWARD EICH

Vice-President—VIRGINIA HARDEN

Secretary—CAROLINE LENTILHON

Treasurer—ROBERT AUTY

Scribe—ROBERTA WHIPPLE

Sargent-at-arms—FRANK MURTHA

Sponsors—MISS BOHRER, MR. CARNEY

The purpose of the Melrose High School Speakers' Bureau is to encourage pupils to participate in contests, meetings, and assemblies.

Members of the club take part in practically all their meetings, and in this way acquire more poise and greater ease in speaking. For the assemblies, members of the club are chosen to introduce the guest speakers.

During the year the club has held many interesting and educational meetings. Symposiums, quiz contests, a tall story contest, five minute speeches, and extemporaneous speeches were some of the highlights of the club's program this year.

Many members of the club took part in the annual declamation contest, which is divided into four parts: original and oratorical declamations, and dramatic and humorous readings. Several of the contestants competed in the National Forensic League contest at Lowell. In this contest Marilyn Parsons won first prize in the dramatic readings; Norman Richards fourth prize in the humorous readings; and Mary Fischer fourth prize in the oratorical declamations. This is the first year that Melrose has competed in this contest, and the club feels proud of this showing.

Speakers' Bureau is indebted to its sponsors, Miss Bohrer and Mr. Carney, who ably direct the club in the art of public speaking.

ATHLETICS

JANET SULLIVAN

MELROSE HIGH SCHOOL HOCKEY TEAM

This past season, Melrose had one of the most outstanding hockey teams in many years. The team finished first in the inter-scholastic league with a record of eleven wins, a tie, and two losses. Particularly fine was the fact that the boys set a new league record for total goals scored, and had the fewest goals scored upon them of any other team in the league.

By winning the league competition, Melrose became eligible for the New England tournament at Providence. In the first round Melrose defeated Hudson Massachusetts High to advance to the semi-finals. Here the boys overcame Needham High to enter the finals against Waterville, Maine. Here Melrose faced a very fast hockey team. In a very close, exciting game the boys gained the decision to become the New England Champions. This was a very great honor, because New England is considered the home of the best amateur teams in the country. Every boy on the team played a part in bringing the championship back to Melrose. One of the most outstanding facts of the tournament and a good reason for the boys' success was the fact that not a Melrose player received a penalty during the three games played in Providence.

Coach Poole has a very excellent nucleus to work with next year, with only Bob Thayer, Dick Bolton, Charley Holt and Charlie Bodley, members of the senior class. With this in mind we can look for continued success in Melrose High hockey.

FOOTBALL

Coach—MR. HAROLD POOLE

Co-Captains—CHARLES HOLT, ROBERT FORD, AND ROGER WASHBURN

Co-Managers—MALCOLM KNIGHT AND ROBERT LICHTENSTEIN

This year the football team ended the season with a record of six wins, two ties, and two losses. All season long the team was handicapped by injuries. The team played its best game on Thanksgiving Day, when it defeated a strong Arlington team 8-7.

The team was sparked on by its untiring co-captain, Charlie Holt. Charlie played in every game and was a threat to enemy goal lines whenever he was playing. Charlie Bodley, Bill MacNamara, Jim Powell, and Eddie Cahoon were the other outstanding backs on the team. On the line Bob Ford, Bob Thayer and Rog Washburn were the outstanding players.

CROSS-COUNTRY TEAM

Captain—GORDON DODGE

Manager—DON THOMPSON

Couch—LEONARD CLARK

This year's barriers met with great success in the regular schedule of dual competition, taking every meet but the race with Dartmouth Freshmen. Victims included Brockton, Winchester, Woburn, Wakefield, Essex Aggies, Beverly, Belmont, Gloucester, and Everett Trade. Out of the mentioned nine, no less than six contests were taken by perfect scores, and with this impressive record behind them, the Redmen went into the State and New England Championships to walk away with second and fourth places, respectively.

Letter men include Gordon Dodge, who snapped the course record, "Red" Wells, Thomas Dockrell, Ralph Pierce, Eugene Cox, Fred Hermann, Forrest Symmes, Norman Tibbetts, George Traquair, Don Allen, and Don Thompson.

BOYS' BASKETBALL

1941

Captain—ROGER WASHBURN

Manager—GEORGE SWIFT

Coach—IRVING NEIMAN

The Melrose High School basketball team of 1941 showed, as have many teams of the past, the same lack of experience and lack of ball handling ability that has been prevalent in most Melrose teams. This is easily explained when we compare the background of our players with that of the players of other teams.

In spite of this handicap, our boys did quite well. Very few teams definitely out-classed us. Whatever superiority some other teams may have shown was in offense. Defensively, our team was as strong if not stronger than most high school teams.

Roger Washburn's play was outstanding while Field and Rautenburg carried the offense, with Carl coming out as the leading scorer.

Next year we have the nucleus for a fairly good Varsity Squad, with Rautenburg, Tilden, Osberg, Cox, and Nazarie forming a strong nucleus, while a group of about fifteen Freshmen, who have been practicing every week, on Tuesday, form a strong group for our Second Squad.

BASEBALL

Coch—HAROLD POOLE

This year the Melrose High School Baseball Team had a schedule of ten games with teams around Melrose, namely: Malden, Stoneham, Everett, and the four league teams, Wakefield, Woburn, Winthrop and Watertown.

The squad was fortified by the return of three veteran pitchers, Ed Brown being one of them. Charlie Holt played first base, Joe Meuse, shortstop, and Bob Thayer, outfield. These players formed the nucleus for the team. The position of catcher was a toss-up between Berk Hunter and Ed Poynter.

TRACK TEAM

Since the Log went to press before the track season started, we were unable to tell much about this year's team. However, last year's was a favorable one, since the team was able to hold second place in the Mystic Valley Championship. Bruce Parks, now of Bowdoin, set a new high jump record of 6' 1" for the League.

The team has held second place in the Mystic Valley League for the past three years and has had stiff competition for first place with Arlington, Chelsea, and Woburn. In '38, the Championship was lost by one point to Winthrop.

Because of new regulations and a comparatively small squad, it will be even harder than in the past to keep our place. The team is sure to come through with such promising men as E. Merchant, R. Washburn, J. Powell, and R. Osburg in the relay, Thompson on the high jump, G. Dodge, R. Wells on the mile, and F. Symmes on the $\frac{1}{4}$ mile. The team is hoping to send a few members to New Hampshire State University for the inter-scholastic meet this spring.

GOLF TEAM

Couch—BLAIR C. WILSON

After winning the Middlesex Golf League Title for the fourth consecutive time and going to the quarter-finals in the state championship, only to be beaten in a close match by Beverley, Melrose High's golf team looks forward to another successful season. Only two letter-men are returning, but with some promising underclassmen they hope to keep up the fine record.

The two boys who won their letter last year and are returning are Russell Boutillette and Philip Troy.

BOYS' TENNIS TEAM

Bright hopes for a championship year were somewhat dimmed by the loss of the Rodgers brothers. With Bob Kimball, Steve D'Arrigo, and Ed Eich as the only returning lettermen, opportunities for earning a place on the team this year are good. This season the schedule includes in addition to seven league matches, others with Newton, Winchester, and Hebron. With the aid of the weather man and conscientious practice the team hopes to continue Melrose's three-year winning streak.

RIFLE CLUB

President—SIDNEY COPELAND

Vice-President—FRANK JACKMAN

Secretary—ALBERT BARRON

Treasurer—ARTHUR MACKENZIE

Executive Officer—IVAN BURNEY

Faculty Adviser—MR. MANSUR

The Rifle Club started its year with a large new membership, many of whom have made rapid progress in marksmanship. The ranges at the Melrose Fish and Game Association and at the American Legion building were generously donated, as in the past. The club now has seventeen sharpshooters and two experts, according to National Rifle Association ratings, and eleven marksmen and one sharpshooter, according to War Department ratings. In interscholastic competition eight members have earned the school letter. Up to May first, the team had won four matches, lost one, and tied one. The club defeated Malden this year, Malden's first loss in its history, and our first win over them in five years of competition.

THE SWIMMING CLUB

The Swimming Club is made up of all four classes divided into three groups: Beginner, Intermediate, and Advanced. The girls meet at the Y. M. C. A. on Tuesday and Wednesday afternoons under the guidance of Miss Kendall, who has turned out some very able swimmers for competitive teams.

The Swimming team is made up of the Advanced group which practiced all season for the Brookline meet. The score turned out against us, but they beat us by only one First Place.

We had another Meet at Malden later in the Spring.

The members of the Senior Class on the team are: Elaine Crawford, Cynthia Page, Helen Richardson, Jean Balfour.

FIELD HOCKEY

Coach—MARY T. SARGENT

Manager—BETTY WOODWARD

Co-Captains—CONSTANCE BROWN, RUTH YORK

Field Hockey is a decidedly popular sport among the girls. Each year there is a large turnout of Sophomores, Juniors, and Seniors to match their skill for positions on the first and second varsity teams.

Last fall, the teams proved to be winners because of Miss Sargent's excellent coaching and the girls' hard practice. The first team remained undefeated throughout the season and had only one goal scored upon them. The second team finished undefeated and unscored upon.

Twenty-two seniors were members of the varsity squad. Jean Ballfour, Connie Brown, Cynthia Page, Ruth York, Elaine Crawford, Doris Vinton, Kathleen Wiswell, Mary Symonds, Margery MacLachlan, and Betty Cummings proved to be outstanding players of the regular first team.

BASKETBALL

Captain—MARY SYMONDS

Manager—RUTH YORK

Coach—MARY T. SARGENT

With plenty of peppy enthusiasm, one hundred and six candidates turned out for varsity basketball. From this talented group, the three class teams were chosen, and promptly proceeded to win ten out of twelve games with Winchester, Malden, Swampscott, and Reading. The best players from these teams were retained, and the Varsity kept up the good record with six wins out of nine games against Arlington, Winchester, Lexington, Swampscott, and last but not least, the Ahummae. In spite of some three and four point losses, the girls finished the season with the same pep and good spirits in which they began it. Prospects look good for next year with many veteran Juniors and Sophomores.

TENNIS

As a result of the fall Tennis Tournament, and with the addition of Jo Jones, Helen Richardson, and Kay Lentilhon, who were on the team last year; the Spring Team promises to be a lively one.

Alwyn Taggart is the most promising star with Betty Surbeck a close second, for they were winner and runner up of the singles tournament. Nancy Jones, Connie Guild, and Francis Nichols will compete for number three place; they being winners of the doubles match. The fourth place is a tie between Mary Walsh and Louise Davis; and Janet Brown, Leslie Lake, Patricia Taylor, and Barbara Tucker are to try for fifth.

With Malden, Arlington, Lexington, Stoneham, and Malden to be played, we will expect some keen competition.

INTRA-MURAL SPORTS

The girls of Melrose High are very fortunate to have such a varied amount of sports to participate in during the school year. Miss Sargent takes a real interest in showing the girls the correct forms and in aiding them to improve their skill. In the fall, the sports that are offered are Hockey, Tennis, and Archery. Winter brings indoor sports such as Volley Ball, Basketball, Ping Pong, Badminton, Swimming, and Bowling. The spring season brings more enjoyment with Baseball, Archery, and Tennis as sports. The pupils have opportunities to play in the stationary periods and after school. From the Intra-Mural games in which every girl has a chance to play, varsity material is developed. A point system is used whereby the girls have a chance to earn their class numerals and school letters under the Girls' Athletic League. A representative from each class makes up the G. L. A. board. The senior representative is Mary Symonds, for the juniors Barbara Dixon, for the sophomores Janet Brown, and Carol Jean Brown for the freshmen.

GIRLS' BASEBALL

Manager—VIRGINIA HARDEN

Coach—MISS SARGENT

One of the most popular spring sports that Melrose High School offers to the girls is baseball. Although the team does not play many games, the girls have given generously of their time, and report faithfully for practice.

This year's team promises a successful season with such veteran players as: Ruth York, Doris Vinton, Kathleen Wiswell, Elaine Crawford, Marjorie MacLachlan, Anne Sheridan, Helen Richardson, and Jean Balfour returning to bat.

MARSHAL'S ADDRESS

Parents, Teachers, and Friends:

The Class of 1941 extends a most cordial welcome to all present.

Class day will give you a chance to review the past, look at the present, and visualize the future events of this class.

We sincerely hope that all of you will enjoy our class day exercises.

ODE TO THE FUTURE

WORDS: *Joyce Merrill*

MUSIC: *Marilyn Parsons*

Thou Goddess unknown servant of the Fates,
Whose augury is hidden from our eyes,
As we press forward through life's open gates,
And look expectant on broad lands that rise,
Thy face is often dreadful to our sight
Yet changes, and with pleasing smiles is bright.

Thou Goddess, Queen of all that is to come,
Companion on the smooth or stony road,
But smile on us as on thy path we roam
That Joy may lift from us Woe's mighty load,
That kindly Hope may overcome dread Fear,
And Peace instead of hollow Strife be near.

We draw our lots with hearts now full of joy, now dread.
We hear thy call; do thou lead on ahead.

HISTORY OF CLASS OF 1941

STEPHEN D'ARRIGO

June 5, 1991

Ladies and Gentlemen:

I thought I would never see the day when I could retire from business, but the time has finally arrived. Now I have the opportunity to look back over the past years and pick up lost contracts. I can think of no better way to begin, than to look through my High School Log. Would you mind if I sat here and glanced through it. Perhaps it would be better if I read aloud some of the amazing accomplishments of the Class of '41.

Let's see: we will start with the Freshman class. I doubt if there was a better class before us, and I know there has not been a better one since we graduated. Ours was a class that was really "on the ball," as we used to say. Such stars as Bob Thayer, Rog Washburn, Bud Cain, Bob Ford, and Charlie Bodley grew from Mac's freshman football team back in the fall of '37. Also rising on the sport horizon were Rog Washburn and Joe Meuse who were the mainstays of the freshman basketball team. Joe Meuse and Charlie Holt started their baseball careers in that eventful first year. Here is a picture of Dave Rodgers. I remember he moved away from Melrose at the end of our Junior year. Dave gained fame for our class by winning a position on the varsity tennis team. Jane Murray was president of Freshman Girls' Club. Many of the girls, not to be outdone by the males, started promising athletic careers.

I remember when we came back after our summer vacation, we were ready to accomplish even greater deeds. I will read a summary of the outstanding events in which our class participated. The first step was to elect class officers. Rog Washburn was chosen president; Nancy Jones, vice-president; Dot Hosmer, secretary; and Bob Auty, treasurer. Charlie Holt did a fine job at right wing on the hockey team, and Rog Washburn held down a position on the basketball team. Another sophomore who brought prestige to the class was Bob Ford who played on the football team. Margie MacLachlan, Kathleen Wiswell, Mary Symonds, and Connie Brown looked like the girls to watch as field hockey and basketball stars.

The Masque and Wig picture shows the smiling countenances of Ruth Walden and Norman Richards, while scattered through the other clubs I see the faces of my classmates. The Sophomore year was only the half-way mark, but you can already see that I was not fooling when I said that ours was an outstanding class.

The year 1939-40 was a year of which to be proud. Here is the secretary's report of the attainments of our class that year.

"The year began with the election of officers. They were Charlie Holt, president; Connie Brown, vice-president; Dot Hosmer, secretary; and Steve D'Arrigo, treasurer. The football team won the Mystic Valley Championship. Juniors on the team were Bob Ford, Charlie Holt, Charlie Bodley, Bob Thayer, and Bud Cain. The field hockey team with Mary Symonds, Margie MacLachlan, Connie Brown, and many other

Junior girls playing important parts, lost but one game all season. Gordon Dodge joined the cross-country team and showed Doc Clarke that he was a valuable man. The Masque and Wig play was "The Bat." Joyce Merrill, Charlie Wiswell, and Norman Richards had important roles in this production. The operetta, "The Mikado" was presented starring Bill Hamlin, Ardelle Mathison, and Andrea Whipple. This year the Student Activity Ticket started in Melrose High. Because of this ticket the Junior class was able to make a profit of approximately one hundred dollars more than usual at the Junior Prom. In addition to Rog Washburn and Joe Meuse, the basketball team welcomed a newcomer, Cliff Fields. Perhaps, the peak of the year was the Washington trip. All those who made the trip will never forget the experience."

That's certainly true. I can still remember some of the things we did. I'll bet the fellows will never forget Tuesday afternoon. Well, I guess we can turn to the activities of the Senior year now.

The football team climaxed their season by defeating Arlington 8-7 in an exciting Thanksgiving Day game. A field hockey team composed mostly of seniors completed a very successful season, having been scored upon only once. Gordon Dodge, Red Wells, and Fred Herman paced the cross-country team. The hockey team was one of the best ever to play for Melrose High. Sparked by Charlie Holt, Bob Thayer, Dick Bolton, and Charlie Bodley, the team captured the Eastern Massachusetts, the Massachusetts, and the New England Titles. Class officers were Charlie Holt, president; Margie MacLachlan, vice-president; Nancy Jones, secretary; and Steve D'Arrigo, treasurer. Heading Girls' Club and Hi-Y were Margie MacLachlan and Rog Washburn. The Masque and Wig produced "What a Life" with Ruth Walden, Don Allen, Charlie Wiswell, and Norman Richards. Bill Hamlin and Ardelle Mathison starred in the operetta, "The Gondoliers." They were ably supported by Andrea Whipple, Don Allen, and Joyce Merrill. Very capable members of the baseball team were Joe Meuse, Charlie Holt, Ed Poynter, Ed Brown, and Bob Thayer. Ed Eich, Bob Kimball, Jack Karuheim, and Bob Auty held down positions on the boys' tennis team; while Alwyn Taggart, Nancy Jones, Joanne Jones, Kay Lenthion, Helen Richardson, and Connie Gould made up part of the girls' team. The year 1941 saw the first Melrose High Ski team capture the Dartmouth trophy at the Mt. Hood Carnival. Dave Simpson, Charlie Cahill, and Harvey Gardner contributed much to the success of the team. Charlie Wiswell was one of two delegates chosen to attend a study of national government sponsored by the National Capital School Visitors Council at Washington, D. C. Ed Eich, Charlie Holt, Rog Washburn, Nancy Jones, and Joanne Jones made up the Class Day committee. To them fell the great task of preparing a program for Class Day. One of the last events of the senior year was the distributing of the Log. The Log Staff was composed of Ruth Walden, editor; Roy Baker, advertising manager; Bob Auty, business manager; Janet Sullivan, art editor; and Anne Chisholm, literary editor.

After hearing about the wonderful records of the Class of '41, you can hardly criticize me for wanting to meet and talk with my classmates again.

STATISTICS OF THE CLASS OF 1941

NORMAN ANDERSON

Parents and friends, as you see, I have been chosen to compile the facts and figures for the class of "41."

First of all I will attempt to acquaint you with the physical make-up and likes of our class. Our average student would be 17, black-haired, stand 5 ft. 7 in. tall, weigh 133 lbs., and wear a size 8 shoe. Swimming would be his favorite sport and dancing his choice for number 1 recreation. The academic subject which he has chosen least trying is Biology. His favorite color is blue although his favorite flower is the rose. His bad habits consist of drinking Coco-cola and chewing gum which, by a survey of the school waste-baskets, we found to be Beechnut.

As in previous years this class has chosen its various outstanding personalities. If these persons who have been selected by their class-mates for the various titles will please stand when their names are mentioned it will help our guests to see who was chosen.

For our first celebrity we turn to the dubious title of least often on time. Frances Shute is the winner of this title and although she is on time today it really isn't a habit.

The title of class exaggerator also goes to the girls and this time it's Nancy Eales who will do the honors.

Next on the list are the two collaborators in that firm, Don't Do It and Try to Get Away With It. Robert Thayer and Frank "Mayor" Cain are the two I'm addressing. They won respectively the titles of most successful and least successful bluffer. Now why can't you two be good little boys?

I'm sure if these two emulated the examples of our class saint Joyce Merrill, they wouldn't be far off the beaten path for Joyce is a girl who just can't seem to do anything wrong.

Turning from the sublime to the ridiculous, I wish to introduce Gordon Dodge who, although you'd never guess, was voted class wit.

Margaret Butchart was chosen our class giggler, but she was giggling long before she saw Gordon so we can't blame it on him.

On the other end of the scale we have Ruth Leonard who gains recognition as our most dignified.

Two others of the fair sex outstanding for their appearance are Louise Furber, our most fastidious, and Connie Brown, our best looking girl.

Now if John O'Shea would please present himself I would like to ask him if he will still be our class woman-hater after seeing those charming girls. Will you, John? — Good, I knew you'd see it their way. John is also our most bashful boy. The girl co-holder of this title is Margaret Nutter. Margaret, will you please stand?

Having the modesty of a native Californian, I refrain now from telling you the choice of the class for the best looking boy. Perhaps that's why Doris Haven decided to become our class man-hater.

The next two to rise really ought to have no difficulty in taking their bows for they are our class actor and actress, Norman Richards and Ruth Walden. Ruth also has the honor of being our most popular girl.

The girl from our class who's always "in the pink" is our class blusher Marilyn Olsen.

Our class flirt certainly never had the malady of blushing. I presume that's one reason why Dorothy Fall is right at home in her all-male English class.

I guess Don Allen would be the man to cope with this situation because he is class ladies' man.

On the more serious side we have our student who made up his mind to study and stuck to it. You know most of us make this resolution but never seem to follow it through. The person I am talking about is John Woodland, our candidate for most studious.

Our class genius probably had this same idea, but possibly he didn't have to study quite so hard. I'd like you folks to see Ed Eich, the fellow who's been the brain-trust for about half the senior class.

Another member who is well known for his scholastic aptitude is Steve D'Arrigo, our Historian and boy voted most likely to succeed.

Among those who have shown talent along other lines is Janet Sullivan. Janet is our class artist and the chairman of the art committee of this year's Log.

Marjorie Dickinson has shown her talent in the line of poetry and was, therefore, voted class poet. In passing I'd like to read one of her original selections—

Singing is Bill Hamlin's pass to fame, and he was chosen class songster.

Along the line of music our No. 1 "hep-cat" and also a No. 1 drummer is Owen "Chick" Baily, our class swing fan.

I don't know whether or not our class best dancers would see eye to eye with "Chick" on the type of music, because I think that Webby Johnson and Connie Gould like that "makes-you-wanna-dance" music.

Two other well-known and well-liked students are Nancy Jones and Rog Washburn, our best-natured girl and boy respectively.

Just as Rog and Nancy seem to be able to get along with anyone, our class pals don't seem to be able to get along without each other. They are Betty Sawyer and Ruth Walden.

Another good team member is our most athletic girl, Mary Symonds.

Our last celebrity appears to be about the acme of all round perfection, for Charlie Holt is not only our President, but was voted the most athletic and most popular boy.

I hope that by giving you a cross-section of our class and presenting a few of its members, I have better acquainted you with the true nature of the Melrose High School Class of '41.

I thank you.

PROPHECY.

RUTH WALDEN

(*Dressed as a Gypsy, gazing into a crystal ball*)

It is indeed with pleasure that I come to speak to the Parents and Friends and members of the Class of 1941. It is their wish that I prophesy the future of the class; and so now I take you ten years from now—1951.

Gazing into my crystal ball, I see a scene of festivity—It seems to be a celebration of some kind. It is coming closer and closer and pretty soon I shall see what it means.

From an elaborate sign, I see that we are at the Mardi gras in New Orleans, and the Class of 1941 is holding their reunion.

As it comes even closer; it seems to be quite a grand reunion for this class, with many elaborate floats, bands, and beautiful decorations.

The long-awaited-for parade of floats is now coming into sight. I see the Drum Major of the Mardi gras procession is *Robert Blois*, who is certainly doing a remarkable piece of work as drum major. In new red and white uniforms, behind Robert, are eight majorettes: *Dorothy Lyle*, *Lucy Mazza*, *Barbara Campbell*, and *Helen Sandgren*, *Lois Jones*, and *Mary Creedon*, and *Frances Shute*. They certainly deserve the applause they are receiving.

The parade of floats is now commencing. The first float to appear in the crystal ball is one with the appearance of a walking library; but it is really the inside of a library. *Carol Ransom* is the librarian, with *Jane Colpitts*, *Margaret Nutter*, *Evelyn Elsel*, *Adah Simons*, and *Dorothy Meuse* as assistants. Although at present they are having no business, from the vast number of books we see they must be kept pretty busy.

An immense float now appears advertising *Cain & Cryan* Law Firm. *Bud Cain* is sitting at his desk and the vice president, *Claire Cryan* and secretary, *Mary Craigie*, are standing before *Bud* waiting for *Richard Borthel*, a client to come into the office. From the look of contentment on "Bud's" face, they seem to have a prosperous business.

The "fleet" must be in, from the float now appearing. It is the battleship *S. S. Collins*, captained by *Irring Brown* and his ready, willing, and eager crew are: *Fred Waghorne*, *Charles Wills*, *Walter Wells* and *Daniel O'Leary*, *Willis Shaffer* and *Fred Popp*. They have just come back from a trip to the Philippines.

The next float in line to pass by the judges stand is making quite a hit. Some of those clever artists of the Class of 1941, *Weston Clark*, *Clark Stewart*, *Robert Collupy*, *Shirley Meuse*, and *Barbara Sullivan*, have made a float representing the various modernistic drawings done by members of their art school. Some of the teachers are:

Janet Sullivan, Lois Miller, Blanche Roberts, Connie Whitcomb, and Roberta Whipple, Paul Vannah, and Robert Pitts. It must certainly be a good school with such capable teachers as former Melrose High School students.

Speaking of "art", there must be quite an art to *Chick Bailey* and his band. He is the leader of the country's number one band. I see he has brought the members of his band with him today. His two singers are: "*Bill*" *Hamlin* and *Ardele Mathison*, and the following have gained recognition in his band: *Elwood Merchant, David Arderton, Charles Cahill, Robert Ellis, Olaf Anderson, David Mathey, and Donald MacDonald and Joe Meuse.*

Following close at his heels, and giving him stiff competition is *Ruth Leonard's* "All Girl Orchestra". She has a chosen selection of members for her orchestra. *Doris Carpenter* is the featured singer and *Ruth Lowell, June Hutchins, and Mariel Allen, and Jean Balfour, and Thelma Butler, Jean McLetchie, Edith Kieckling and Gladys Sparling and Thelma Sheppard* comprise the orchestra. They write their own music and make all special arrangements of songs. Their business manager is *Don Allen* and of course they have plenty of secretaries to answer their fan mail. *Mildred Campea, Betty Boyd, and Catherine Calt, Norma Cogswell, Doris Hart, and Dorothy Berry, Lois Longland, and Olive Howe, and Dorothy Goddard, and Barbara Henderson,* are kept pretty busy answering all correspondence. The musical groups seem to be together, as now appears *Miss Carla Leiberman's* School of Music, who has her staff with her. *Priscilla Cheever* is teacher of piano; *Bob Lofberg* teaches the drums, and *Marjorie Dickinson, Eva Moore, Margaret Daysh, and Phyllis Dolley, and Ruth Lindquist* are the teachers of other instruments. *Bob Auty*, Business Manager and *Frederick Ashman*, Advertising Manager, together they keep the school enrolled to its fullest. Along the line of art, is the creative fashion designers. Passing by the Judge's stand is *Jenny Longo's* School of Designing. She has two schools to accommodate her pupils. *Jenny* is very ably assisted with teachers: *Alwyn Taggart, Grace Kronenberg, Lou Furber, Betty Cummings, and Dorothy Fahy, and Barbara Kendall.* Women of the United States no longer care for Paris designs, but go to *Jenny's* school, where her pupils will design and make anything you desire.

Here comes another school—but this is for little tots. It is *Janet Holden's* "Day School for Children," with *June Graves, Betty McNeil, Edwina Meuse, and Marquita MacHugh, and Phyllis Knight,* to keep the children amused—it's no wonder the school is such a success. They can not do without bookkeepers to keep the accounts straight; so *Evelyn Girouard, Earle Gavaza, Ray Harrington, Orrill Pickett, and Catherine Riley,* keep the books in order. This relieves some of the burden from secretaries: *Doris Robinson, Eva Pope, Helen Shaw, and Dorothy Bushy.* *Bob Ridley* is business and advertising manager combined into one, to induce parents to send their children to Janet's school. He is also dancing teacher and if they don't learn anything else they will be dancers. *Joyce Merrill* instructs them in dramatics and so they are well on their way to "stardom", even at such a young age.

Speaking of "stardom", along comes *Norman Richards* and *Marilyn Parsons*, who have just come from Hollywood. Their float represents a scene from "It Happens Every Day", *Caroline Lentillon's* newest playwright. She writes for both Broadway and Hollywood producers. In Hollywood she has written for producers *John Learitt, Fred Koodlick, and Paul Girouard;* for Broadway the famous producers, *Frank Jackman, Roger Howard, Kenneth Haskell, Louis Rocke, and Donald Bridge.*

Following *Marilyn* and *Norman* are Hollywood's ace make-up artists *Marilyn Olsen* and *Agnes O'Gara*. *Lucille Sullivan* is in charge of the costume designing. *Virginia Wilson* is the art director, and *Don Geary* has charge of all lighting. *Owen McEnroe* arranges and directs all the music. *Dave Mackernan* is the "Scene Locator." He finds out where a certain place may be found, that resembles the scene called for. Of course they cannot do without wardrobe assistants as *Barbara McCann* and *Ellen Babcock*. *Gladys Boultette* has charge of all costumes and taking care of them during filming of scenes. *John O'Shea* is film director.

Now we have left the stage and screen, our thought turn to sports, when the All-American Eleven passes into view. Who should be on it but *Bob Ford*, *Berkley Hunter*, *Kimball Jones*, *Arthur Gould*, *Bob Conn*, *Leo Spadafora*, and *John Murphy* and *Harry Folger*, *Donald Cockburn*, and *Robert Huacwill*, and *Ralph Shaw*. Of course they could not do without an efficient water boy, so *Mal Knight* is honored by the position. *Bill Rust* and *Henry Sartori* are Junior Managers, who do most of the work. *Charles Plantinga* and *Bob Murphy* are the Senior Managers.

It seems that *Bob Kimball* and *Sterc D'Arrigo*, world's champion tennis doubles players bring their own tennis court with them. On their float is a miniature tennis court and *Sterc* and *Bob* are waiting to play a championship game with *John Karmheim* and *Leonard Lering*.

Phil Troy is not going to let them beat him with their titles; as he comes with his titles and a car full of trophies, which he has won in golf.

The girls never like to be far behind the boys, for now I see *Mary Symonds*, captain of the United States Girls' Field Hockey team. *Barbara Tinkham*, *Kathleen Wiswell*, *Helen Richardson*, *Phyllis Arling*, *Ruth Davis*, *Ruth York*, *Marjorie Wesley*, and *Eleanor Virgin*, and *Virginia Lent*, are members of the team. *Connie O'Keefe* and *Virginia Burbine* are managers and plan the games and accept all challenges. No wonder they have been champions for four years with such capable instruction from *Anne Sheridan*, coach of the team.

Appearing in the next float is the girls' single and double tennis champions. *Nancy Jones* holds the Women's Singles Title, and *Nancy Washburn* and *Irma Milton* are Doubles Champions.

The "Women in White" is the title of the float now appearing. As can be seen, it consists of the Nurses of the Class of '41. *Virginia Harden*, *Doris Haven*, *Marion Clark*, *Elaine Crawford*, *Barbara D'Entremont*, *Phyllis Eales*, *Gertrude Frye*, and *Dorothy Fall*, *Doris Vinton*, *Mildred Spraker*, *Andrea Whipple*, *Rosalie Russo* and *Alca Essery*. In a typical doctor's office, I see a group of doctors in conference: *David Germonprez*, *Roy Baker*, *Edward Brown*, *Dick Boland*, *Bob Kearney*, *Dick Hussey* and *Ed Eich* are deeply engrossed in a new method to inject serum for a dreaded disease.

There is just one more float to pass the reviewing stands. It is to be a gift presented by the class to the High School. Upon closer observation, I find it is a statue of the symbol of TRUTH which was sculptured by *John Contreas*.

The end of the Parade of Floats has now finished. It has been the idea of the members, to show, by the floats, their progress during ten years.

Newspaper men, reporters, and photographers have been about during the parade; taking pictures and writing the events of the day. The Chief reporter for the Chicago News is *John Forrest*, and *Roger Ellis*, and *George Edwards* are assistants. Other reporters seen about are: *Nancy Eales*, *Marquita MacHugh*, *George Doughty*, *Clifford Dixon* and *Gilman Jackson*. *Ivan Burney* has claimed many startling discoveries in his photography for the newspaper.

Kerin Carbin and *Franklin Carney*, two reporters, are standing by the side-lines exchanging news about other members of their class.

By closer observance of these two, I have learned a great deal more about the members of the Class of '41.

Robert Calder is now owner of a large cattle ranch in Texas. *Julius Contreas* and *Clayton Conn*, *Charlie Plantinga*, and *Joseph Fahey* are working on Bob's ranch.

Harvey Gardner has secured ownership of the American Airline Service. *Winnie Fahey*, *Marjorie Dorigan*, *Ruthie Moulaison*, *Ruth Robinson*, and *Joanne Lawless*, and *Emma MacMillan* are hostesses on his airplanes.

Bob Piper and *Dick Bolton* the "Million-Dollar Playboys," have just secured a Peanut Ranch in Louisiana.

Olive Mortenson's book, "So Think It Over," has just been released for publication.

Marjorie MacLachlan writes the advice to "Love Lorn" column in the "*De Freitas Flash*." *Helena Bacon* is also writing the column on latest fashions in the same paper.

In Washington, D. C., we have none other than *Norman Anderson* as President. *Thomas Carbin* is his personal secretary. *Bea Shea* is the new Ambassador to Denmark.

In New York, we find the *Wagstaff Medical Hospital*. Employed are: *Jean Gordon*, *Libby Munroe*, *Joan Haley*, and *Grace Reece* and *Norma Corbally* and *Marjorie Bourke*, as efficient medical secretaries.

Sidney Buttrick and *Lawrence Camerline* have established a "Hunt and Find" Detective System. They even located *Juanita Smith's* chickens stolen from her farm in New Hampshire.

Louise Hughes and *Doris Hardy* are claimed as this country's greatest Surf-Board Riders.

Coming to Boston is the *Simpson* and *Stantial* Circus. They have, believe it or not, *Robert Swaine* and *Bob Thayer* in their famous trapeze act. *Lloyd Sullivan* is the clown, who makes quite a hit with the little children. *Ralph Wells* is the Dare-Devil Horseback rider. *John Tirrell* is Lion Tamer and also has charge of all the monkeys.

Gilbert Van Buskirk is the Principal of Melrose High School. *Roger Washburn* is Mayor of Melrose. *William Warren* is Superintendent of Schools.

At Rye Beach, New Hampshire, *Eddie Poynter* has opened a large summer resort. *Charles Wiswell* is assisting *Eddie* with the financial end of the business. *Maynard Wentzell* has been placed as radio technician at station W.F.L.X.

The famous "All Girls' Ski Team," captained by *Betty Morse*, and with *Lael Kinison*, *Archie Hutchins*, *Albertine Parker*, *Norma Walsh*, and *Barbara Walters* are going to Canada to compete with the team captained by *Cynnie Page*.

The largest pool in the world, recently designed by *Willard Van Buskirk*, has just been completed. On the opening day they will have *Betty Woodward*, champion long-distance swimmer, and *Warren Tourtellott*, back-stroke record holder, as guests.

Donald Swaine has established a new Haberdasher Shop in Melrose. *Charles Holt* is the most photographed model in this country. He poses for pictures in the "Taylor" fashion magazine.

Eleanor Bergstrom is a famous cook in the Hotel Commodore, New York. Hostess at the same hotel is *Marguerite Butchart*.

On *Janet Kemp's* return from Europe, she brought back her collection of Poems. They will be published by *Johnson and Johnson*, publishers, of New York and Boston.

The new Woolworth Building in Melrose, is under construction of *Lawrence Hunewill* and *Bob Hult*. *Clifford Field* is going to be the new manager.

Elsie Dostman has introduced her "*Bill*" to Melrose Board of Aldermen.

It seems now that they have no more to report to one another of the Class of 1941. It must be that they have no more to report to one another of the Class of 1941. It must be that our time is almost up—but wait!!!

The crowd is being drawn like a magnet to the beautiful landscaped flower garden owned by *Charles Coleman*. It is here, where the finale of the Class reunion is held.—The crowning of the Queen of the Mardi gras.

Constance Brown is being crowned Queen with *Betty Sawyer* as her Lady-in-Waiting. *Norma Clifford* and *Pussy Coan*, *Jo Jones* are *Connie's* attendants.

The crowning of the Queen is a beautiful ceremony to finish the Class Reunion.

I see now everyone is preparing to leave and go back to their respective places. Slowly but surely they are saying their last good-byes and now the Class Reunion of 1941 has come to a glorious end.

Before I go, I beg of you not to heed too seriously the prophecy of my crystal ball, for after all there is a limit to what it can prophesy! May the mystic spirits bring you luck in the coming years.

PRESENTATIONS

WILLIAM CHASE HAMLIN

(dressed as a vagabond)
and
(assisted by Virginia Harden)

VIRGINIA:

We are honored in having with us today
Mayor T. Jones, who, by the way,
Will give presentations to pupils here
As fond remembrance of school days so dear.
(calling) Mayor T. Jones—Mayor T. Jones
(The Vagabond enters on an old-fashioned bicycle).

VIRGINIA:

What! Who are you? Why are you here?
What's your name? Can't you steer?

THE VAGABOND:

Did I hear you calling for Jones, Mayor T.?
I am a Jones, though no mayor I be
For I like the open—a vagabond's life
No office—no money—not even a wife.
Now that I'm here, lady, what would you like?
We stand at your service, me and my bike.

VIRGINIA:

We wait for the mayor and the gifts he is bringing
To wind up our Class Day with joking and singing,
But since he's not here with the gifts he's selected
And your name is Jones, I guess you're elected.

THE VAGABOND:

I traveled afar with my goods on my back,
And all that I have is here in my pack
I've played many parts as I've wandered along
Now the mayor I'll be—and throw in a song.

DON ALLEN (*string of women*)

There's always one in every class
Our Ladies' man is you
So here's a string of women, Don
I guess you won't be blue!

MARILYN OLSEN (*baby powder*)

No matter what you say to her
Her face her feelings show
Use this box of powder, Mal,
To cover up that glow.

PAUL GIROUARD (*car*)

You'll always hear this master-mind
Discussing motor trouble.
To you we give another car
To make your troubles double.

FRANCES SHUTE (*roller skates*)

Roller skates are something handy
If you're late in starting.
Take this gift and use it Franny,
As a memoir of our parting.

EDWARD EICH (*dice*)

Eddie is a wit in class
A wizard on the courts
To you we give this "racket"
And praises of all sorts.

STEPHEN D'ARRIGO (*bow and arrow*)

Steve is one grand fellow to know
From beginning to end, he's been a square shooter
And so our gift is an arrow and bow
Remember, for you, each of us is a rooter.

DOROTHY FALL (*blackjack*)

If, when several boys go by,
You by chance should wink your eye,
Do not falter to use this
Should your methods go amiss.

ROBERT AUTY (*piggy bank*)

This man's life is bound to be
Full of woe and misery,
'Cause he's forever collecting money
For dues, and year books, aren't you, Sonny.

JANET KEMP (*map of world*)

Kupie Kemp has traveled
Extensively, I hear.
This little guide will help you
Should you get lost, my dear!

FRANK CAIN (*handkerchief*)

Poor Bud, he's been through quite a lot,
He's done his share of sighin',
But now that school is nearly out
I do declare, he's Cryan!

RUTH YORK (*song*)

Yorkie, I've heard you like music,
So to you I'll give this song.
I hope you will all bear with me
For it won't be very long.

ROBERT THAYER (*tire patching*)

Bob takes part in many sports,
He loves them, one and all.
That is why we give him this:
To patch him up if he should fall.

EDWARD BROWN (*picture*)

I hear you're quite a pitcher, Ed,
With balls, and things, and such;
But what I really want to know
Is where did you learn so much?

KATHLEEN WISWELL (*baseball bat*)

Butchie, as is Eddie Brown,
Is quite a pitcher, too;
So when she gets up at the plate
This gift will help her follow through.

LEE HOUSER (*bottle of wave-set*)

Some folks say waves come that way,
With patience and devotion;
But just in case you lose yours, Lee
Here's some of my wave lotion.

GILBERT AND WILLARD VAN BUSKIRK (*signs*)

Mike and Ike, they look alike.
Gil and Wil do, too.
These signs I hope will keep folks straight
On exactly who is who.

NANCY EALES (*rubber bands*)

Your tongue is ever stretching things
To suit your every fancy.
In case it fails, these rubber bands
Will do the stretching, Nancy.

GORDON DODGE (*knitting yarn*)

Gordon Dodge is quite a man
At track; in classroom, too;
And when he starts to string a yarn

SALUTATORY

BENJAMIN FRANKLIN—AN APOSTLE OF DEMOCRACY

JOHN T. WOODLAND

Parents and Friends, Mr. Sprague and Teachers, Mr. Stuart and Members of the School Committee:

We rejoice that you have honored us by your presence at our graduation and we welcome you.

We are indeed fortunate to be able to conduct these exercises, which have been an annual occurrence in Melrose since the time of the Civil War. We realize our good fortune in this respect when we regard the lands across the seas. In many of these countries, the ordinary course of daily life has been ruthlessly interrupted by the vicissitudes of war.

Thus far, however, America remains a free country, in which a peace-loving people are left unmolested to satisfy their needs and ambitions.

It is our earnest desire to keep the greed of dictators and the desire for conquest and persecution away from our shores. We who are now graduating wish to cooperate with you who are already working toward our common goal, the preservation of democracy.

When the name Benjamin Franklin is mentioned, we all have immediate recollections of a grand old statesman and a talented inventor. We have read of his patriotic activities at the time of the American Revolution; how he stood up for the rights of the struggling Colonies; how he signed the Declaration of Independence; and how he solicited aid from France for our newly formed nation.

In our earliest school days we were told that Franklin, during a storm, flew a kite to see whether he could draw electricity from the clouds. We have learned how this benefactor of mankind has contributed such useful inventions as the stove and the lightning rod. We have laughed at the picture of the boy Franklin trudging through the streets of Philadelphia, munching one loaf of bread and carrying two others under his arms. Our laughter turned to admiration when we learned that this singular lad became a successful printer and produced such an entertaining and instructive publication as *Poor Richard's Almanac*.

Yet, do we know what enabled Franklin to rise from obscurity to greatness? Do we fully realize what characteristics this distinguished man possessed which caused him to live such a successful and productive life? In order to evaluate these qualities correctly we must look at Franklin not as a statesman, nor as an inventor, but as a man.

We must find out by what rules he governed his life, in order to learn what principles made him capable of handling important situations so well.

The two traits of Franklin with which we are probably most familiar are diligence and frugality. We must not gain the impression that Franklin was a scrimping, stingy miser, as we are likely to infer from reading *Poor Richard's Almanac*, in which are found such well known adages as, "A penny saved is a penny earned." With his money, however, he was not cautious beyond the demands of good sense. In fact, he would rather have had it said that "He lived usefully" than "He died rich." It has been said that no other self-made man ever formed a saner estimate of the value of money.

Franklin was also a temperate man. He was so modest that he made it a rule never to contradict anyone. In argumentation, he expressed his opinions in such conciliatory form that for fifty years no one ever heard a positive assertion escape his lips. Some of his greatest ideas have been prefaced by such calm expressions as, "It appears to me," or "In my opinion." Especially in a tense and critical situation is it wise to recall Franklin's saying, "Speak not but what may benefit others or yourself."

Tranquil as Franklin always was, he was not a coward, nor did he lack the power to form definite plans for important situations and carry them through. For Franklin was a man of action. One of the rules of his political career was "Never turn aside in public affairs, through views of private interest; but go straight forward in doing what appears to you right at the time." From this declaration of principle it would seem that Franklin worked independently of public opinion and did what he thought best for the present, leaving the consequences to be worked out in the future.

Usefulness was the standard set by Franklin for himself in all his activities. His objective was to secure practical results. As a leading biographer of Franklin has said, "He knew what the world ought to be, and might be made to be, but he also knew what the world was, and was likely for some time to be."

One salient trait of Franklin was his ability to cope with all situations. Always armed with a clever and useful plan, he practically never failed to reconcile opposing factions to each other. His policy was to advance all ideas warily, yet with an easy manner. By rationalizing and reducing seemingly complicated situations to their lowest terms, Franklin arrived at simple, clear, and wise conclusions.

In regard to international disputes, Franklin was a strong advocate of preparedness and unity. To substantiate his inclination toward the former, I shall quote one of his favorite sayings. "One sword often keeps another in the scabbard. The way to secure peace is to be prepared for war." Another familiar and pithy statement gives us proof of his desire for unity. When discussing plans for the Declaration of Independence, he said "We must all hang together, or most assuredly, we shall all hang separately."

Although Franklin was a calm and peaceful man, when there was peril to be braved, he could always be relied upon to do his part. Yet, he was slow to anger and had remarkable self-control. When cruelty, injustice, or other forms of human immorality had to be corrected, his indignation was deliberate and calculating until the last crushing blow had been delivered.

Now when we are faced with war on every side, we may well ask ourselves whether men like Franklin have lived in vain. I say that they have not, for in remembering their deeds—how at times they worked in the face of overwhelming opposition and how they sacrificed every personal desire for the sake of their country — we may find inspiration to guide our nation safely through danger.

Although we should not slavishly emulate Franklin's deeds, which belong to another day and age, we must try to let the same unselfish principles guide us. For instance, Franklin worked untiringly for the union of the thirteen original Colonies. Yet America's need for cooperation did not cease when this conciliation was accomplished. For contending motives and desires remain to be reckoned with by every generation. At the present time various classes, races, and political parties raise their conflicting voices. This confusion only dampens the spirit of democracy, and accomplishes nothing permanent. Let us rather make an effort to adjust the clashing forces of agriculture and industry, of labor and capital, and of racial prejudice.

We should let our actions be frank and open, doing, as Franklin did, what we consider right and proper at the time. While endeavoring to be practical, industrious, and persevering, let us give America predominance in our minds over all personal interests.

Franklin's character, however, could not have been so strong and virtuous, had he not had such a worth while cause to work for. This cause was democracy. His belief in democracy was so steadfast that it became the most important factor of his life. This confidence led Franklin across the sea, where he valiantly solicited aid for our infant republic, so that although his victories were won in the secret chambers of diplomacy, they were no less decisive in winning freedom for the Colonies than the triumphs of Saratoga and Yorktown. If each one of us possessed the firm conviction that our governmental system was right, he would find it much easier to develop the quality of calm fearlessness. For it is above all others this trait of calm fearlessness which enabled Franklin to become what he may truly be termed, the "apostle of democracy."

ESSAY

LIFE UNDER COMMUNISM

CAROL RANSOM

"Land, Bread, Peace," the slogan of the Communist Party, contains the ideals the Russians are trying to reach by an economic plan changing an agricultural into an industrial country. This project involves the equal distribution of wealth among a population consisting of the youth, imbued with the doctrines, ideals, and practices of Communism; a standing army of over two million; the O. G. P. U. or secret police; and one political party, the Communist. In these different groups, temperamentally slow, meek, and yielding, the Communist Party has introduced a ruthlessly sweeping and totally different economic program, which changes the standard of living in regard to business, living conditions, religion, schooling, and military training.

The government has socialized industry, collectivized agriculture, and thereby transformed the State into a huge business enterprise. To effect this industrial and agricultural program, the Communists have taken over every individually owned business concern and farm. Thus, besides being a citizen, each person automatically becomes an employee of the Communist Party, which owns all trade, economics, finance, industry, and agriculture. In reality, the workers are slaves of an intolerably grasping capitalism, which uses the product of their labors and owns their meager food and clothing stores, miserable living quarters, and schools.

Let us consider now the effect of Communism upon the worker's home life. Rationing still goes on, for enormous taxes cause food shortage, especially of the main diet, bread, by reducing labor production through the undermining of peasant morale. Luxuries abound, but clothing diminishes; so that a person may obtain only one pair of shoes a year. Besides a food and clothing shortage, there is a scarcity of houses. Those people who live in two or three room apartments consider themselves fortunate, for usually several families occupy one room. Much remains to make Russia industrially efficient enough to supply the material needs of her own people.

Communism also affects the way the Russians worship by substituting for orthodox religion a religious enthusiasm for new economic and social developments. Besides active propaganda against all organized religion, the State destroyed churches, seized their lands, and killed priests. While churches hold services but perform no charitable or recreational work, parents give religious instruction at home. Since the government controls all printing, it refuses to publish the Bible or any other religious books. In spite of suppression and purges, the spirit of the Church lives. Perhaps the Communists had just reason to suppress religion in view of the abuses connected with the Churches before the Revolution. Now the Party regards religious faith as an opiate and an obstacle to wholehearted acceptance of science to improve conditions.

Education, as well as religion, falls under the sway of Communist domination. Children are shielded from contact with religious education, but are trained in state-controlled schools to follow Communist doctrines. There are schools for children beginning at three years; such as, Kindergartens, labor schools, and schools for the nu-

fortunate. Besides these primary schools, there is an increasing number of universities and colleges, both for general and vocational education. In addition, Russians are educated by never-ceasing radios, pictures, and wide-spread libraries in factories, clubs, and other public buildings. In these same improved schools, uniforms are worn, Youth Communist organizers supervise the pupils inside and out, and many have opportunity to attend them only two years to learn the principles of Communism.

In a manner similar to the control of education, Communism restricts and guides the scientific and cultural life of its people. All scientific investigation must directly serve the welfare of the Party and State. The old idea of science based on intellectual ability has died. The Party believes that good food, good schools, and good proletarian atmosphere can overcome heredity in the form of disease and physical defect. In a word, science of any kind is aggressively derided as unattainable and anti-social. In fact, any thought is the repetition of the ideas, words, and slogans set forth by the central government or its organ, the "Pravda." Worthwhile, but critical work is banned, while meaningless, but indoctrinated books are forced upon the masses as inspiring literature. Thus, if you talk to one Russian, you have talked to them all, for initiative and creative instinct have been crushed. The "Pravda" prints directive, almost commanding, editorials concerning art in all forms and literature of cultural and educational content. It advocates that "Culture should be socialist in content, national in form."

Since "defense of the fatherland is the supreme law of life," Communism again molds life by the cultural, military, and political training given to its army of men, some only seventeen. But there is a crisis in the leadership, for, through the purges of officers, untrained juniors have been placed in important positions. The militia system has been abolished in favor of the Cossack troops, with their titles and rights of pre-Revolutionary days. Besides this imposing army, national strength to defend the Communist doctrines from opposition within and from invasion of democratic ideals is contained in the O. G. P. U. secret police, and the Youth Communist Organization of young people up to twenty-five. Both organizations keep the country purely Communist by the O. G. P. U.'s arrests and by the Youth Communists' group teaching. In this way Russia shields her people from the life, principles, and conditions in other countries. Therefore, Russians are content through ignorance.

In fact, ignorance of other countries and their own keeps the Russians from becoming suspicious of the savage methods employed by the Communist Party. The Party members also refuse to accept outside criticism, but believe that they have reached perfection. Through the propaganda of the "Pravda," the Party attempts to gain the consistency and power of standardized thought. No matter how skeptical actual experience makes him, a Russian becomes a counter-revolutionary when he departs from the prevailing official ideology. He is forbidden to have, say, or think anything but what the politician-capitalists, who rule Russia, approve, or he will be punished by imprisonment, hard labor in concentration camps, or death. These officials, who enjoy material and financial privileges, are selected for candidacy by the Party, and are voted upon by secret ballot. When they are elected, a struggle for place, power, and material advantage ensues. This conflict often results in purges of those considered superior in power or intellect, especially the useful and irreplaceable technicians in all fields. Thus, "Communism is a body of doctrines, a series of proposals for economic and social change." Because it opposes democracy, capitalism, and Christian ethics, we Americans would never be willing to accept it as a way of life in substitution for the principles and privileges which we enjoy as citizens of a democracy.

ESSAY

LIFE UNDER NAZIISM

ALVA ESSERTY

We in America are not able to imagine the full devastation of free life under Naziism. Education, family and social life, religion, political and economic life are all restricted and dictated by the state. One may well ask how such a brutal regime, founded upon violence, came into existence.

After the World War Germany was in a chaotic condition. Her people were crushed by the bitter wounds of the war and bewildered by the offers and wranglings of thirty-three political parties. Physically a strong people, thorough and precise, the Germans were disgusted by the weakness and disorder of their Republic. In desperation they grasped at Hitler and the disciplined order of Naziism. The Germans are also a gregarious people. Alone, the individual German feels weak and unimportant, but marching with a crowd, he feels that he can conquer the world. He never tires of parades and military drill. He needs and likes discipline.

A deep knowledge of the characteristics and problems of the German people has been one of the greatest strengths of the Nazi rulers. Out of chaos Naziism has created a strong, unified nation, striving toward a definite but rather ridiculous goal — world domination.

The whole aim of Naziism is to destroy those elements which constitute the foundation of civilization. Christianity, the dignity of the individual and tolerance, justice, truth, and logical reason are obliterated. War is glorified as the highest activity of mankind. Naziism openly undertakes to corrupt the entire youth of a nation.

National Socialism begins in the kindergarten, where the young children learn their first lesson, obedience, and listen to stories about their Fuhrer. In both public and private schools the young people are taught highly colored, intensely patriotic versions of history, wherein the German virtues are continually extolled. Besides this garbled version of European history the German children are taught the Nazi racial theories — anti-Semitism and the superiority of the German people. Military drill and parading, mass singing and excursions, and patriotic devotions have all rapidly captured the children's imaginations. In the higher schools and universities the students are taught the art of warfare, tactical and strategical.

Every young person is trained to fill a position which will benefit the state. He is a Hitler child. He is no longer an individual, but is just another cog in the great Nazi machine. He is told what to do and how to do it, what to say and how to say it, what to think and even how to think it.

Furthermore, Naziism has fundamentally estranged the family. The youth of Germany are so well trained in the Nazi doctrines and yield so unreservedly to the persuasions of Nazi emotional patriotism that they think their duty to the state greater than to their parents. When a child says that the Germans won the war and were cheated only by the peace, the parents dare not argue. The child would not understand and would probably report his parents at school next day.

Women in Germany are denied all rights except that of hard labor. Woman is the foundation of the home. When respect for woman is destroyed, the home is destroyed. How then can the state, which is made up of homes, survive?

All the women of Germany are carefully watched by many different organizations. They are told what to buy, what to wear, what and how to cook. At any time of the day a woman official can spy into any home in Germany to see what is on the pantry shelves, what is cooking, and what is in the garbage can.

One thing with which Nazism has done away is class distinction. The rationing system is no respecter of classes or persons. Manual laborers are better off in respect to food than the rich. The cars of the well-to-do stand idle for want of gasoline. Like the poor they walk or use public conveyances. Rich and poor alike stand in line to obtain their weekly rations.

Social life under Nazism is perhaps more active than before. Nerves are constantly kept in a dangerous state of tension, and the thought of an evening alone is unbearable. The ordinary people have picnic socials at home or visit public amusement places. At these picnic socials the guests bring their own food drawn on their own ration cards. The men talk of the political and military situation. The women discuss clothes and food problems. But no one dares voice any objection to his position. If anyone says, "I think the Fuhrer is wrong about this," he is whisked away by the Gestapo to a concentration camp.

For Germany is ruled tyrannically through three agencies: the one and only party, the Nazi party; the state; and the armed forces. Hitler is the head of all three.

Everything in German life is a substitute for the true thing. There is even an ersatz religion, with Germany as its God, Hitler as its Christ, and *Mein Kampf* as its Bible. In government orphanages the children are required to say this prayer before every meal: "To thee, alone, I owe my daily bread; abandon thou me never, with me fore'er abide, Fuhrer, my Fuhrer, my Faith and my Light."

The Nazis usher their young people into adulthood by "Consecrations of Youth," in which only Germany is worshipped and only Hitler adored. Christmas, according to Nazi doctrines, originated with Wotan, one of the first and greatest Nazis. Good Friday is dedicated to Baldur. The German Faith Movement acknowledges only one Lord, Adolf Hitler. "Christ was great but Hitler is greater," declare the Nazis.

This revelation of Nazi principles and methods convinces us that it is a form of government that forces mankind backward rather than forward, that retards rather than advances civilization. Especially is Nazism repugnant to Americans, who recognize in it everything which they have repudiated in the development of their governmental ideals. The domination of government by a single party, the suppression of free speech and free worship, the subordination of parental authority to that of the state in the education of the young, the degradation of womankind, and the iron regulation of the economic and social life of the nation—these perversions of the true principles of government we abhor and condemn. To the people of Germany who are compelled to exist under the hateful horror of this regime we extend our sympathy. We hope that they may soon be delivered from the bondage of tyranny to take their rightful place as free men and women in a world composed of free nations dedicated to the cause of peace and the advancement of civilization.

VALEDICTORY

LIFE UNDER DEMOCRACY

OLIVE G. MORTENSON

In listening to the description of life under other forms of government, we shudder at the thought of living under anything but a democracy. If Hitler sent an ambassador to us to form some sort of an agreement, we would at once show ourselves skeptical, and our situation might be similar to that of the witness who was called to testify in a robbery case:

"Do you suggest he is a thief"? asked the counsel.

"I wouldn't say he's a thief, suh," said the witness. "But if I was a chicken, I'd sure roost high!"

It seems to us that without democracy life would be unbearable. But why? What is this democracy — this American way — that we should so much prefer it?

American democracy in an effort to replace all arbitrary rule in public or private affairs by a system of balanced governmental powers, balanced private rights, and balanced social groups. It is an effort to obtain and preserve this balance by the provisions made in a constitution to check each department and each person in whom power is invested.

We say that Americanism is opportunity, but for what? In Germany a paper hanger can become a "Führer," and in Russia the son of a shoemaker can become dictator of one hundred and seventy-five million people from the Baltic to the Pacific. America gives to no citizen the opportunity for any such rise to personal power. Opportunity in our country is limited by the rights of others.

We say Americanism is democracy, but democracy simply means the rule of the people, meaning the rule of the majority, and we know that a majority—as in the case of the French Revolution—can be as tyrannical as a dictator. Restricted by both federal and state constitutions, the majority in America cannot delegate all the power to any one man or to any one group of men, as a majority in Germany voted all the power to Adolf Hitler. Power among Americans is divided, some retained by the people so that all minorities can criticize and oppose the majority.

Because of this system, democracy gives the ordinary man a security which is conspicuously absent in those nations filled with Gestapo squads and concentration camps. It offers employees and employers an equal justice, which cannot be found behind the Labor Front of Germany, where the government dictates the wages and hours, and workers have no rights of collective bargaining. It provides a chance for a law-abiding man to get ahead and keep ahead—an opportunity which the tyranny of totalitarianism does not permit. It enables a man to make use of his talents in all his family, social, and political relations, instead of having them crushed under the dominance of "the

party." Culture and the arts flourish under democracy, whereas writers, musicians, scientists, and painters have been routed out of Germany and Russia.

Therefore, in a world in which democracy and dictatorship exist side by side there can be no peace. If the guns cease firing, it will be merely an interlude. War will be with us until one or the other of these principles of government is accepted throughout the world.

This can be clearly seen when one realizes the great difference in the manner of living under the two types of government from the standpoint of education, militarism, and economics. In contrast to the stern, state-controlled school systems of totalitarianism, American schools are liberal and cater to the desires and capabilities of the students. Not in Germany or Russia would one find a school where a pupil can choose the vocation which is most suited to his individual tastes and abilities. There students are trained for their life work, yes; but what that work shall be is determined not by what they want to do, but what they can do that would benefit the state. Education in Germany or Russia is like a mass production of stereotype Nazis or Communists, all molded to become the cogs in the massive machinery of the state. Education in America is like the work of a sculptor; everyone is molded individually and retains his own traits of personality.

In the same way, life under democracy is vastly different from a military point of view. In Russia and Germany the accent is on power through military strength, and every youth is not only brought up in a military atmosphere, but receives intensive compulsory military training with the idea of thus making their country have influence and power in the world, as well as controlling the activities of the people of their own country. Here in the United States only this year have we had compulsory military training, and this, with an entirely different object in view; namely, that of defending our country against one of the world's greatest fanatics.

However, even more divergent from the American way are the German and Russian economic systems — systems which are based on the mobilization of the entire economic power for the use of the government—, a direct contrast with the American system in which the government obtains enough money through taxation to use for the aid of the people, to make their country a better place in which to live.

For, although during the last century the chief incentive for production in America was profit, not human need, now a whole group of new enterprises and public agencies have been devised to cultivate our resources, to reorganize our industry, and to raise our standard of living for the entire population. More and more federal funds are being used for wiping out slums, turning shacks into houses, barren traffic arteries into parkways, wastelands into grass-covered fields or forest-covered slopes, and dust bowls into lands made suitable for human occupation by vast dams, irrigation works, and power plants like Grand Coulee. With government funds we are trying to take run-down factory districts, poverty-stricken farm sections, and crowded tenement areas and turn them into communities of culture and happy social life. And now it gives us a bitter jolt that the nation that opposes our system of government has created a wide-spread war, for defense against which we must amass enormous amounts of money, which might otherwise be expended in forming among our people a more perfect union, thus preserving the greatest example of democracy that exists in the world today.

For this same reason, Americans can no longer afford to let democracy take its own course. Democracy must vindicate itself, must defend itself against the tremendous onslaught of Nazi and Communist propaganda that tries to make the most of the so-called failures of democracy, the insecurity, the lack of discipline, and the frequent corruption. Democracy must employ propaganda of its own in word and deed; it must prove that it gives more to the average man than those slave states can ever give. We must wake up from our complacent stupor. We must forget our own petty wishes and make ready to sacrifice our own insignificant comfort for the maintenance of our way of life; for no American would consider life worth living without the freedom of personal expression which only democracy affords.

Parents and friends of the class of 1941:

Now that we have reached the moment when we must step forth into the world on our own — into a world in which all our standards of living are so confused, so entirely upset — we realize that only by following the ideals and standards that you have helped us to form can we stand our ground against the seemingly overwhelming odds that confront us. Thus it is with a growing appreciation for all that has been done for us that we say farewell to you and all who have been associated with us during these four years.

Classmates:

Upon our shoulders rests the task of preserving for all mankind the democratic ideals and standards that seem to be so rapidly vanishing from this modern world. We go forth with the knowledge that there are things worse than war and death, that we must keep them from spreading into our land. It is better for a man to die than to be subjected to the terrorism, the surrender of all standards and ideals, and the perversion of truth, which have accompanied the dictatorships wherever they have come into power. These evils are more devastating and more far-reaching in the end than the destruction of life. They destroy the innermost soul of the people, stamp out all consideration for others, and leave a man a choice between a mechanical obedience to the despot or hopeless revolt against the state. Thus, as we bid farewell to one another and each goes his separate way, we must be ready to meet this challenge, to safeguard our American way of life by building a stronger, more practical democracy that can forever uphold and justify our faith in the American ideals.

EDUCATION FOR THE DEFENSE of DEMOCRACY

What are YOU planning to do with the next few years of your life? Start your college education for a life-time profession? Work at a trade in a defense job? Many ambitious young people are already combining both plans and you can do it too by enrolling at
